DR SUNIL SHUKLA Director, EDII

# "Strategizing to scale new heights" Director says...

DII was set up in 1983 and after the initial years of evolvement, the Institute had been able to successfully identify its key domains of operation, in consonance with the Institute's as well as the national mandates and goals. EDII identified six primary areas to achieve its strategic goals, and continued to evaluate them from time to time to employ and incorporate best policies & programmes. These domains were appropriately structured around the mandates of EDII, the emerging national & international markets and leveraged on EDII's leadership in the field. Over 35 years, the Institute pioneered distinguished interventions that have steered policy formulations and replicable development models. However, with uncertainties and risks weighing heavily on the National as well as global markets, EDII thought it prudent to revisit its work domain.

Thus, with an eye on customizing Institute's approaches and strategies to India & other emerging markets, maintaining the relevance of its initiatives in the changing context and crafting plans and policies which address the voids in the markets, EDII revisited its thrusts and domains. Strategizing assumed strength in the light

of government's initiatives to promote start-ups, identifying and stimulating unexploited entrepreneurial fervor, instilling entrepreneurial orientation in executives, students, women, disadvantaged groups & other sections, addressing the vulnerability of rural and urban micro enterprises, emphasizing on innovations, incubation and research.

Enhancing the spirit of entrepreneurship & levels of skills and opening up sustainable entrepreneurial paths based on proactive policies guided our role in reinstituting an accelerating system for entrepreneurship. This has led us to five new departments, which include those of Public Advocacy, Knowledge and Research; Entrepreneurship Education; Projects; National Outreach & Business Development Services and Developing Economy Engagements.

Let me assure you that innovative projects, programmes and practices will remain the hallmark of this institute, and competitive entrepreneurship through education, novel projects, capacity-building, training, innovations and research for inclusive development will make a more conspicuous presence.

**SUNIL SHUKLA** 

### The Institute

# An acknowledged National Resource Institute for Entrepreneurship Education, Research, Training & Institution Building.

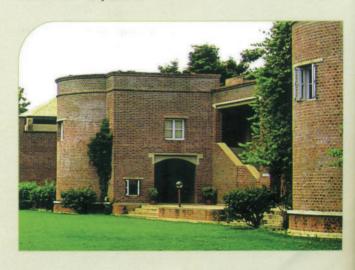

Entrepreneurship Development Institute of India (EDII), an autonomous and not-for-profit institute, set up in 1983, is sponsored by apex financial institutions - the IDBI Bank Ltd., IFCI Ltd., ICICI Bank Ltd. and the State Bank of India (SBI). The Government of Gujarat pledged 23 acres of land on which stands the majestic and sprawling EDII campus.

To pursue its mission, EDII has helped set up 12 state-level exclusive Entrepreneurship Development Centres and Institutes. One of the satisfying achievements, however, was taking entrepreneurship to a large number of schools, colleges, science and technology institutions and management schools in several states by including entrepreneurship inputs in their curricula. In view of EDII's expertise in entrepreneurship, the University Grants Commission had also assigned EDII the task of developing curriculum on entrepreneurship and the Gujarat Textbook Board assigned to it the task of developing textbooks on entrepreneurship for 11th and 12th standards.

In order to broaden the frontiers of Entrepreneurship Research, EDII has established a Centre for Research in Entrepreneurship Education and Development (CREED), to investigate into a range of issues surrounding small and medium enterprise sector, and establish a network of researchers and trainers by conducting a biennial seminar on entrepreneurship education and research.

In the international arena, efforts to develop entrepreneurship by way of sharing resources and organising training programmes, have helped EDII earn accolades and support from the World Bank, Commonwealth Secretariat, UNIDO, ILO, FNSt, British Council, Ford Foundation, European Union, ASEAN Secretariat and several other renowned agencies.

The Ministry of External Affairs, Govt. of India assigned to EDII the task of setting up Entrepreneurship Development Centers in Cambodia, Lao PDR, Myanmar and Vietnam and Uzbekistan. Five such centres in African region will be established very soon.

Sunil Shukla, Director Ph.D. (Psychology) director@ediindia.org

Dr. Sunil Shukla has over three decades of experience in entrepreneurship education, research and institutionbuilding. Education being his core area, Dr. Shukla has been instrumental in institutionalizing 'entrepreneurship education' at EDII. An avid researcher, his findings have ably extended the frontiers of entrepreneurship & have made significant contribution in policymaking. Dr. Shukla has extensively worked for the Greater Mekong Subregion (GMS) countries, ensuring that the entrepreneurial potential of the region is unleashed for promotion of development and trade. He also leads the India Chapter of the largest annual study of entrepreneurial dynamics in the world - the Global Entrepreneurship Monitor (GEM) Survey. Dr. Shukla is also on the board of several institutions and organizations, extending advisory support to strengthen entrepreneurship.

# Department of Entrepreneurship Education

The growing interface between entrepreneurship and education is bridging the chasms which make entrepreneurship a distant career option. Lately entrepreneurship education has emerged as a significant instrument for harnessing entrepreneurial potential and ensuring enterprise success. And encouragingly enough, today society has also started manifesting trust in this discipline. Entrepreneurship education was pioneered by EDII in India, in 1995. EDII also launched the first ever Fellow Programme in Entrepreneurship to strengthen the entrepreneurship education & research ecosystem. Following suit and endorsing entrepreneurship, today there are several institutions which offer courses of different duration in this discipline. This only confirms that today's youth is keen on putting their energies & ideas to productive use by adopting entrepreneurship as a career.

#### Department of Entrepreneurship Education focuses on:

- Industry relevant long term, duly approved courses with curriculum that encourages experiential learning, problem solving, project-based learning, creativity and team work.
- Short term entrepreneurship courses to sensitize society at large and imbibe the spirit of entrepreneurship at a young age.
- Doctoral programme in entrepreneurship to create a cadre of educators, resource persons and researchers in entrepreneurship.

Priti joined the PG course at EDII with hopes in her eyes. She later ventured into diamond jewellery business and took small steps to reach atop. Crises and setbacks didn't leave her side but Priti's

determination and learning saw her through. After working for a while she started her own enterprise. Today, her venture, Awesome Sparklers has crossed a turnover of Rs 80 Crore, won several prestigious awards and is a sought after brand.

Priti Bhatia Awesome Sparklers

PGDM - Business Entrepreneurship: 2003-2004

was a Geohydrogeologist and travelled extensively to the far interiors of Saurashtra. The suffering of people that she saw from close quarters, developed in her the desire to contribute to the development sector. After completing the NGO Management course at EDII, Tejas worked for sometime in the sector before floating her own venture Avkaash. Currently she is developing an NGO Finance Network which would serve as a knowledge sharing platform for finance professionals working with NGOs.

Tejas Merh grew up close to nature as her father

**Tejas Merh** Post Graduate Diploma in Management : 2000 – 2001

- Programmes to build an ecosystem in entrepreneurship education by sensitizing the academia.
- Curriculum development on entrepreneurship showcasing innovations in context, pedagogy and other aspects of entrepreneurship education.

#### The Year 2018 - 19:

- New programmes will be evolved in view of government's focus on start-ups, policies and initiatives promoting start-ups.
- Training material will be developed on entrepreneurship education for school level teaching.
- Collaborations will be struck with global entrepreneurship institutions to offer joint programmes.
- Innovative technology-based ideas will be nurtured to ensure that these crystallize into sustainable entities. E-commerce would be particularly underlined to enhance prospects for Startups, especially that of EDII alumni, in the fast emerging digital world of business.
- The process of setting up a university in entrepreneurship will be initiated to decisively impact the entrepreneurship landscape.

"I thank OLPE for helping me fulfil my dream of setting up an enterprise. I floated Sarjan Industries in 2017. It offers complete exterior designing and weather shading solutions and I am glad to mention that in just a span of one year, our turnover has reached Rs. 75 lacs. We have also been recognized as a startup by the Department of Industrial Policy and Promotion"

Gaurav Acharya Open Learning Programme in Entrepreneurship : 2005-2006 "I was always worried about my daughter's development. I had been aware about the need to inculcate the traits of a gogetter in children but despite my best efforts, I couldn't impart this habit to my daughter. This camp did that task. Today I see a distinct change in her. She values 'knowledge' and has an attitude to be creative, thinks out-of-the box and doesn't turn her back on challenges. Thank you, EDII."

Devanshu Gandhi Managing Director Vadilal Industries Limited

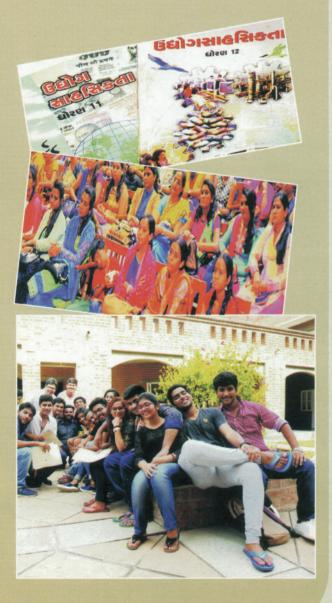

## Achievement

- EDII's long term programmes till date, with 78 percent success rate; out of the students who have set up their own enterprises or have contributed to diversification of family business, the estimated percentage of students with turnover upto Rs. 25 cr. is 69 %; 18 % are in the range of Rs. 25 to Rs. 50 cr.; 2% are between Rs. 50 to 100 cr. and around 1 % above Rs. 100 cr.
- Introduced the pioneering 'Fellow Programme in Management' to encourage research in entrepreneurship. 15 researchers have enrolled in four batches.
- Developed more than 3000 teachers of higher education across the country through 98 Faculty Development Progammes.

- Sensitized/trained over 8 lakh students, together with about 500 higher learning institutions in the country (on behalf of DST, Gol, since 2008 – 09).
- Commissioned by CBSE, revising curriculum on entrepreneurship for 11th & 12th standards for CBSE schools and is also developing the text books (19000 schools).
- Got designated by the Govt. of Gujarat as the Nodal Institute for Promoting Start-ups and has been appointed as the Anchor Institute to strengthen entrepreneurship in the state.
- Reached across the country through 87 batches of 'Open Learning Programme in Entrepreneurship', thus training 13350 learners.
- Institutionalized informal training models (national summer camps for children and youth) for instilling entrepreneurial spirit in 3602 children and youth.

# Department of Entrepreneurship Education

# Annual Plan of Activities - 2018-19

# Department of Policy Advocacy, Knowledge & Research

EDII strategically engages in developing a set of parameters for policy advocacy, which involves understanding the variables at play and comprehending their interrelation to develop a conceptual structure. The emphasis on Policy Advocacy is essential as EDII seeks to broadbase entrepreneurship nationally by creating an ecosystem which nurtures legal and regulatory aspects related to entrepreneurship.

The Institute has implemented policy advocacy as a fountainhead of innovative programmes/ideas in working with the government, public and private sector. Over the years the EDII has evolved innovative policy theories, intervened in the existing models and opened scope for research initiatives. Through systematic research, analysis, dissemination of findings and appropriate interventions, the Institute has greatly contributed to enhancing its stock of knowledge. EDII has instituted a robust knowledge management system to drive innovations and spearhead entrepreneurship far and wide. Department of Policy Advocacy, Knowledge and Research works to influence crucial policy decisions taken by the Central and State governments particularly in areas such as MSMEs, Food Processing, Microfinance, Skill training etc. The Department will make in-roads into policy advocacy by means of creating required channels of communication with governments and by strengthening its knowledge management and research.

The GEM India Consortium comprising EDII, Centre for Entrepreneurship Development Madhya Pradesh (CEDMAP), Bhopal and Jammu & Kashmir Entrepreneurship Development Institute (JKEDI) has been consistently putting in efforts to enable a clear conception of the entrepreneurial ecosystem prevailing in the country. The GEM India Report 2016-17 throws light on the trends and changes in entrepreneurship landscape.

"Looking at the range of topics included in the Biennial Conference, we can say that entrepreneurship research has come of age. EDII has been arranging this conference since long, providing a platform to researchers, practitioners and educators of entrepreneurship to share their ideas, beliefs and work with other experts."

Prof Pradip Khandwalla Former Director, IIM-A

#### Department of Policy Advocacy, Knowledge and Research focuses on:

- Providing conceptual underpinnings to national and international entrepreneurship policies by engaging self-help groups and informal grassroots networks in participatory processes
- Assisting policy makers and other stakeholders in their efforts to promote equitable entrepreneurship opportunities
- Calling upon government bodies and private organizations to recognize and integrate entrepreneurship in their development policies, such that it emerges as an explicit focus of policy design and implementation

#### The year 2018 - 19:

- A strong knowledge base will be created based on project studies undertaken by the department. This think-tank will guide decisions at macro level.
- Knowledge dissemination and sharing of best practices will be undertaken at National level.
- The Department will assist and engage Central government, State government, and other industrial bodies over strategic decisions on their development programmes.
- The Department will conduct evaluation of internal and external policies of those sectors and fields that the institute works in. Impact assessment studies will be focused upon.
- Deliberations among key stakeholders, thought-leaders and entrepreneurs will be promoted to strengthen institute's research agenda.

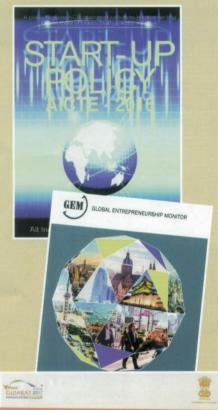

appreciate that EDII faculty members have achieved milestones in the area of entrepreneurship, and believe that the Institute can play a major role in realising the Hon'ble Prime Minister's vision of 'Start-up India, Stand-up India'. The entrepreneurial eco system which EDII has so ably created, must be continuously strengthened."

Prof. Anil D. Sahasrabudhe, Chairman, AICTE "Entrepreneurship has been visualized as one of the strategic development interventions to accelerate socio-economic development process of underdeveloped areas. For sustainable growth and development, there is a need to inculcate the spirit of entrepreneurship, with emphasis on science & technology, among local youth. Gladly, policy interventions are also favouring this trend. DST, through its various projects, implemented by EDII, aims at instituting a new generation of job creators in the mainland and the hinterlands of India."

interlands of India." **Dr. Neeraj Sharma**Advisor & Head, Technology Development &
Transfer, Policy Research Centre, DST, Gol.

# **Achievement**

- Commissioned by the Central / State
   Governments to prepare
  - > National Policy for Entrepreneurship
  - > AICTE Start-up Policy Document 2016
  - > Start-up Vision Document 2020
- Led to the formation of a scheme on Cluster
   Development after introducing the cluster
   development model
- Leads the world's largest study in Entrepreneurship, 'Global Entrepreneurship Monitor' for its India Chapter.

- The International Biennial
   Conferences on Entrepreneurship
   Research, organized by EDII provide a powerful platform to
   researchers to explore the various
   facets of entrepreneurship. 12
   Conferences witnessed participation from 1000 delegates including 73 from 33 foreign countries.
- The Journal of Entrepreneurship, brought out by EDII since 1992, is a sought after publication in the field and is internationally acclaimed.
- Floated policy level interventions for entrepreneurship development in Cambodia, Laos, Myanmar and Vietnam.

Department of Policy Advocacy, Knowledge & Research

# **Annual Plan of Activities - 2018-19**

# Department of Projects

Through various projects under the categories of Government-sponsored and Corporate- sponsored, EDII seeks to develop knowledge that encourages innovation and replicable models. Institute's projects, across the country, have covered diverse sectors and target groups, and have made a unique contribution to economic and entrepreneurial transformations. These projects have emanated development and growth for important segments of society.

The projects within the ambit of EDII include those assigned by the Central & the State Governments, development organizations and public enterprises. In each case, skill training, new enterprise creation, MSME sector development, employment generation and innovation have become a norm. EDII also works closely with Corporate Houses to train their employees in intrapreneurship skills and to undertake Corporate Social Responsibility projects for social good.

#### Department of Projects focuses on:

- Partnering with governments at the state and national levels to initiate and implement innovation-led projects that spawn viable and highly scalable business models.
- Focussing on S&T entrepreneurship so that knowledge based, technology-led enterprises become the order of the day.

#### **GOVERNMENT SPONSORED PROJECTS**

# Sector-based Entrepreneurship Development Programmes

- Food Processing
- · Handlooms and handicrafts
- Tourism

#### **Programmes for Existing Entrepreneurs**

- Skill Development
- Enterprise Upgradation

#### Science and Technology Entrepreneurship Development

- NSTEDB, DST, Gol
- Technology based S&T Entrepreneurship
- Bio-technopreneur programme

#### **Programmes for Potential Entrepreneurs**

Startup Village Entrepreneurship Project

#### CORPORATE -SPONSORED PROJECTS

| Corporate Social Responsibility | Social Entrepreneurship | Intrapreneurship Development | Essel Group | Facebook | Yes Bank | Accenture | ITC | Hewlett Packard

- Institutionalising S&T entrepreneurship, capacity building of academia and specialised institutions created for promoting entrepreneurship
- Ensuring progression of entrepreneurial capabilities in sectors such as; agriculture, food processing, handlooms, traditional crafts, travel and tourism etc.
- Ensuring effective skill training of potential entrepreneurs and capacity development of existing entrepreneurs in different trades and sectors
- Collaborating with Corporates to build intrapreneurial skills among their employees and to implement the projects of corporates for the larger good of society

#### The year 2018-19:

- The project work output will be extensively documented to create a rich pool of knowledge.
- Focus will be strengthened on skill building, training and capacity building projects for development organizations, corporates and government.
- Consultancy Projects under the aegis of National Centre for Rural Entrepreneurship in collaboration with Ministry of Rural Development, Govt. of India, will be promoted.
- Collaborations will be struck with various National and State Governments to partake in various state and national level projects.

EDII's Startup Village Entrepreneurship Programme (SVEP) in Madhya Pradesh, focuses on Rajpur block's Sangoan village, Barwani, where most of the SHG families

earn less than INR 3000/- monthly, via daily wage and agriculture. With SVEP's technical and entrepreneurial skill training; a CEF loan of 5 lakhs and an additional loan of 3 lakhs from the Village Organisation, eight women started their production unit, "Shree Ganesh Agarbatti Udhyog", with 5 machines.

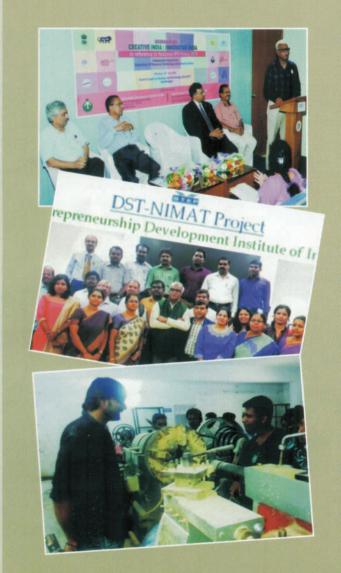

Within 5 months of inception, they have achieved 95% of their maximum production capacity. Currently, they are producing 350 to 400kgs. of incense stick per day, with a daily turnover of INR 18,000/- to INR 22,000/- and a daily profit of INR 3,600/- to INR 4,000/.

#### The Entrepreneurial Spirit Makes a Headway....

Life was uncomfortable for Karnali Sarkar....trying to make ends meet. Half-heartedly, hoping for some change in life, she joined an EDP under DST - NIMAT project to learn about doing business. This one decision changed her life. Today Karnali is the proud owner of a Beauty Parlour, with four people working under her. She not just learnt about setting up & managing her business but also managed finances through bank loans.

# **Achievement**

- Functioning as a National Startup and Monitoring Cell for NewGen IEDCs (New Generation Innovations Entrepreneurship Development Centres)

   an initiative of DST, Govt. of India
- As DST's National Implementing and Monitoring Agency for Training, conducted 590 workshops and programmes, thus sensitizing 24,750 beneficiaries, training 1075 youths &1250 women on entrepreneurship.
   While the Technical EDPs trained 1725 youths and the Faculty Development Programmes groomed 1960 academicians.

Currently being implemented in 5 states, and the scope of implementation in the states of Bihar and Madhya Pradesh is being explored.

# **Department of Business Development Services** & National Outreach

#### **Rationale**

MSMEs, critical to an economy, have been rightly called the' Engines of Growth' or the 'Catalysts of Socio-Economic Growth of a Country'. They have emerged as veritable answers for generating employment, deploying indigenous resources, harnessing entrepreneurial potential and promoting innovations and efficiency. However, these small businesses operate on relatively smaller budgets and amidst volatile times they might easily descend. With India depending largely on MSMEs, housing more than 6000 clusters of MSMEs, it becomes urgent to extend professional support that enable the sector to become competitive and productive. EDII has emerged as providers of quality Business Development Services to address the issues facing the MSMEs across sectors. Going beyond generic services, the Institute has also started providing value added quality business development services in different domains including; production, marketing, technology, productivity, diversification, value chain upgradation, brand building etc. As a National Resource Institute, EDII also bears the onus of institutionalising entrepreneurship nationally by undertaking projects/ programmes across the country and by ensuring setting up of EDII-like institutions in other states.

# Department of BDS and National Outreach focuses on:

Initiating activities at the state, regional, and local levels, to sensitize the eco-system and undertake activities for promoting entrepreneurship and accelerating start-ups, thus ensuring business sustainability and growth.

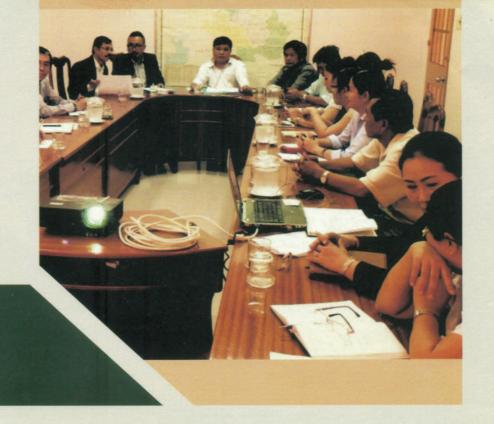

"Entrepreneurs covered under the project - Implementing Business Development Services in Santiniketan Leather Cluster - were taken to Chennai and Agra Leather Clusters for understanding mechanized production process. Besides serving its main purpose, the visits also gave us an idea of product diversification. This has helped us in improving our existing products and introducing new products in

the market which brought us many significant purchase orders. Here, the Project also helped us in getting finance to meet the orders either from the bank or under the Prime Minister's Employment Guarantee Scheme. Leather producers also started using Tera-Kota Leather, instead of East India tanned leather to manufacture quality products. Now we are getting orders from leading leather goods marketers and exporters, like; Manjusha, Bongeshree and other Govt. retail outlets.

Earlier each individual artisan was working on his or her own. But now we have formed a consortium as we know the advantages of working in a group. We now purchase raw material in bulk, invest in machinery, produce quality items and negotiate with potential buyers to reap the benefits of working together in a cluster.'

Mr. Manik Ghosh

State Award Winner for Innovative Leather Products, Bolpur, Dist. Birhum, West Bengal

- Dialoguing with state governments, support organisations and undertaking development projects.
- Developing a cadre of Business Development Service (BDS) Providers and extending strategic BDS to MSMEs, organisations for productivity improvement.
- Ensuring technology upgradation and enhancing/expanding productivity, quality, market and exports and operational efficiency of enterprises.
- Supporting clusters of MSMEs & individual businesses for holistic development and improved competitiveness.
- Influencing state governments to set up Institute of Entrepreneurship Development (IED)/ Centre for Entrepreneurship Development (CED) in respective states in a concept to completion approach
- Undertaking capacity building of existing state IEDs/CEDs

### The year 2018 - 19:

requirements."

- Considering the significance of and the rising demand for strategic business development services,
   MSMEs operating in clusters, industrial areas, value chain sectors, producer groups and SHG federations and vendor groups will be provided business development services at nominal fees.
- EDII's national expanse will be utilized for extending support to MSMEs and other organizations for operational and management efficiency.
- EDII like centres to be established in newly formed states in concept-to-completion mode.
- BDS support system will be remodelled to serve start-ups, incubatees and high-impact enterprises.

"The entrepreneurs got useful information in the area of responsible production, besides knowledge on cleaner production techniques, space management and work area maintenance. For instance, the entrepreneurs packed dyes & chemicals in minimum 1 kg. bags, thus making it difficult for entrepreneurs to cater to smaller requirements. Today they have started the practice of packing in less than one kg bags. This has benefitted the producers by increasing their business as customers have started purchasing as per their

Mr. Rayji Patel
President - Naroda Industrial Association
(As opined on EDII's interventions in the projectImplementing Business Development Services,
Ahmedabad Dyes & Chemicals Cluster

# **Achievement**

- Pioneered the implementation on Business Development Services (BDS) market in India, thus giving recognition to the BDS market development approach in the country.
- Created a cadre of 799 Cluster
   Development Executives (CDEs) to
   nurture cluster initiatives.
- Implemented, monitored and extended technical support to clusters and MSMEs across country, thus revitalizing more than 200 industrial and artisanal clusters on the fronts of technology, markets, productivity, quality, export and value chain upgradation.
- Worked towards improving operational and management practices of organisations in the domain of public and private sector.
- Registered two Patents & has applied for eight more.

 Worked as a National Resource Organisation with the Central Ministries and as Project Management Consultant with State Government to spearhead MSME cluster development in the target region/state.

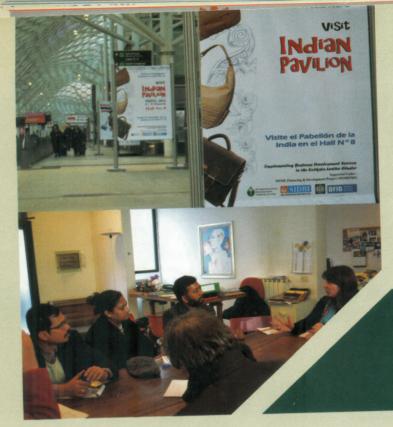

Drive us...

- Functioning as Technical Agency for Khadi and Village Industries Commission [KVIC], Ministry of MSME, Government of India by providing support for developing 18 handicraft\Village industries clusters (12 clusters of Uttar Pradesh, 5 in MP and 1 in Gujarat).
- Functioned as National Resource Agency for 20 handloom clusters across India; out of these 3 were directly implemented by EDII (Varanasi, Chanderi & Sonepur)
- Revitalized Handloom Cluster at Sivasagar & Handicraft Cluster at Srinagar.

Department of Business Development Services & National Outreach

# Annual Plan of Activities - 2018-19

Department of Developing Economy Engagement

#### RATIONALE

Entrepreneurs are the backbone of the developing world; however the challenges of a developing economy sometimes make entrepreneurship an arduous task. Availability of mentorship, funding and training can make the path smooth and worth traversing for many a wanne-be entrepreneurs. EDII, a national resource institute in the field, also shoulders the responsibility of placing several developing countries on the entrepreneurial route. The Institute achieves this by focusing on developing an entrepreneurial ecosystem which has a strong base of academia, training and Government institutions and corporates who work in consonance with each other. This it seeks to achieve through various locational interventions and by setting up Entrepreneurship Development Centres in various countries. Innovation driven entrepreneurship, human resource development, entrepreneur friendly regulatory framework and policy research become the order of the day.

## Department of Developing Economy Engagement focuses on:

- Forging strategic partnerships for promoting enterprise development in developing economies for improving the entrepreneurial ecosystem.
- Sensitizing support system in developing economies and collaborating with them to adopt a coordinated and inclusive approach to promote entrepreneurship.
- Implementing country-focused programmes in close partnership with local governments and leading local partners, so that capacity building is ensured in the areas of entrepreneurship

"I urge the participants to introduce new systems, learnings and paradigms in their country so that the people at large benefit and the knowledge infiltrates through various layers of the social structure. Institutions like EDII are helping us spread knowledge far & wide, and I am sure our mandate will certainly get fulfilled."

Shri Dinkar Asthana, Joint Secretary (DPA-II), Ministry of External Affairs "It is said that 'Give a person a fish and you will feed that person for a day. Give him / her a fishing rod and the person will never go hungry again'. I believe EDII has given us the recipe of making fishing rods. I wish to continue the legacy of EDII by sharing the knowledge I have gained

here with my society and government.

Ms Pauline Kusimba, Kenya (Participant of the programme - Entrepreneurship & Small Business Promotion)

education, cluster development, women entrepreneurship, micro enterprise development as also organizational capacity building of local partners.

- Introducing Indian entrepreneurs, both existing and potential, to a broad range of insights and best
  practices in the developed world, and encouraging the use of these in strengthening communities
  and growing economies.
- Evolving 'Concept- to- Completion' approach for setting up Entrepreneurship Development centres, internationally.

### The year 2018 - 19:

- Collaborations will be worked out with governments in developing economies to set a vision for improving the incidence of entrepreneurship by using local experience, knowledge, and networks to provide training and mentorship to budding entrepreneurs
- Governments will be encouraged to take a coordinated and inclusive approach to promote entrepreneurship by instituting Centres of Entrepreneurship Development
- Capacity building programmes will be undertaken to hone skills of developing economy personnel in entrepreneurship and related areas.

"We have really enriched ourselves in Business
Hindi and the culture of India. We will play an
instrumental role in strengthening the
relationship between India and China.
With India-China economic ties
becoming strong, cultural exchange
between the two countries will also
help make a huge difference leading
to cordial relations."

Ma Sha Yunnan Minzu University, China "India and Malaysia have lot of similarities with regard to culture, tradition and entrepreneurial ecosystem. I am glad that the two countries are working together on the prestigious project - Fostering I n n o v a t i o n - a n d R e f u e l i n g Entrepreneurship (FIRE). Experiences shared by the participants of FIRE have convinced me that EDII in India is the right partner for Malaysia as far as promoting entrepreneurship is concerned. We believe this partnership shall create employment opportunities and bring prosperity to the people of Malaysia"

HE Dato' Hidayat Abdul Hamid, High Commissioner of Malaysia to India

# Achievement

- Trained a sizeable number of participants from the Greater Mekong Sub Region (GMS) ensuring that the entrepreneurial potential of the region is unleashed for promotion of development and trade.
- Set up Entrepreneurship Development Centres (EDCs) in Cambodia, Lao PDR, Myanmar & Vietnam and work is in progress towards establishing such EDCs in Uzbekistan, Rwanda and four other selected African Countries.
- Conducted 10 Entrepreneur Trainer-Motivators' Programmes under the support of Commonwealth Secretariat. A cadre of 178 Resource Persons has been instituted.
- Implemented projects with support from the World Bank, Commonwealth Secretariat, UNIDO, ILO, FNSt, British Council, Ford Foundation, European Union, ASEAN Secretariat, SDC etc.
- Has emerged as an International Resource Centre and a Centre of Excellence as declared by the United Nations Economic and Political Commission for Asia and the Pacific (UNESCAP), Bangkok, Thailand.

EDII has tied up with Human Resource Development Fund under Ministry of HRD, Malaysia to assist Malaysian Government in ensuring 35% skilled Malaysian workforce by 2020.

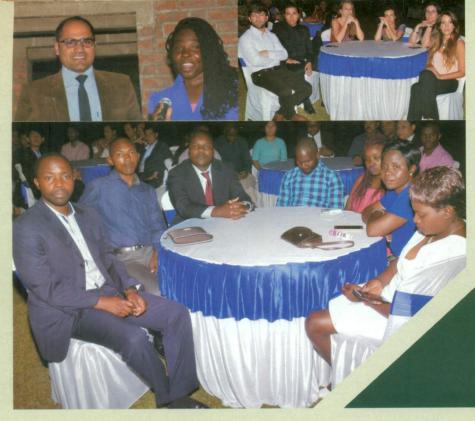

- United Nations Industrial Development
  Organization (UNIDO) set up its first overseas centre,
  the Inter Regional Centre in Entrepreneurship, at
  EDII under which entrepreneurship was
  institutionalized through training of resource
  persons, entrepreneurs, support system officials and
  by setting up of ED centres.
  - Since 2001-02, organizing International Capacity Building Programs under ITEC, Ministry of External Affairs, Gol. Grooms close to 400 international delegates annually.
- Institutionalized entrepreneurship education in technical and vocational streams in developing economies
- Conducted 4 programmes for Instructors' Training
  Centre (ITC) The Vocational Training Organisation
  (TVTO), Iran, to institute a cadre of 120 resource
  persons to institutionalize entrepreneurship in Iran.

# EDII signs deal to train hundred Malaysian entrepreneurs

# Inks MoU With **HRD Fund Of** Malaysian Govt

TIMES NEWS NETWORK

Ahmedabad: Entrepreneurship Development Institute of India (EDII) has inked a memorandum of understanding (MoU) with the Government of Malaysia's Human Resource Development (HRD) Fund on Monday, As part of the MoU, EDII will be providing training on entrepreneurship to some 100 entrepreneurs from Malaysia. At pre-

sent, some 20 mentors from Malaysia in different sectors are already taking training for mentorship at EDII.

energy, information technology and healthcare are some of the key areas where Malaysian entrepreneurs are looking at business opportunities. The entire training is being funded by Malaysian government. Previously, EDII has conducted training in entrepreneurship for Malaysian government's Pembangunan Sumber Manusia Berhad (PSMB), another arm of HRD Fund. That apart, the institute has also conducted trainings for entrepreneurs in countries such as Myanmar, Cambodia and Laos across South East

Talking about the importance of such a training, S M Siva, director, IMS-Asia, a partner agency of EDII

based in Malaysia. said, "Around 90% of businesses in Malaysia are Small and Medium Entrepri-
