Digital University Kerala and EDII Launch Blockchain Program for Entrepreneurs Startups

==

Thiruvananthapuram, May 12 (UNI) Digital University of Kerala (DUK) has announced the launch of a unique online "Certified Blockchain Startup Program" that would immensely help entrepreneurs and startups in sharpening their skills in cutting-edge digital technologies and setting up industries.

DUK, India's first digital University that was launched in February this year, will conduct this course in collaboration with Entrepreneurship Development Institute of India (EDII), Ahmedabad and Kerala Blockchain Academy.

The Program, launched yesterday under the banner DUK Prajna , is the first roll-out of DUK Prajna - an online platform for easy and flexible learning of newer cutting-edge technologies that will provide blockchain basics and how the technology is applied over different business verticals, including government, banking, supply chains, real estate, environment and health.
