Commerce & Industry (DICCI)

The Chairman & Managing Director
Small Industries Development Bank of India

Chief Executive Officer and
Managing Director
IFCI Ltd.

DR SUNIL SHUKLA

Director
EDII

Planning for the Year 2017-2018

We began another year with rigorous strategising sessions to set new goals in consonance with the needs and development across sectors and states, and EDII's mandate. The focus was on arriving at a tactical approach where EDII's core competencies could be harnessed to match pace with the external environment. This year, in addition to EDII's standard business frameworks, we have also sought to identify new business models to address emerging needs.

We have recently launched the Technology Business Incubator – the Centre for Advancing and Launching Enterprises (CrAdLE), supported by the Department of Science & Technology, Govt. of India. In line with the mission to promote start-ups, CrAdLE will support the start-up drive in the fields of food processing, healthcare, renewable energy and manufacturing. The institute has always stressed on the importance of education in entrepreneurship. While the trend has picked up over the past few years, the setting up of CrAdLE will further boost the phenomenon of New Enterprise Creation, especially among the youth. Besides, an in-depth analysis has indicated that there is a market for short-term education for prospective young entrepreneurs; EDII will, therefore, ready a blueprint for addressing this need. Rural and micro entrepreneurship development with focus on cluster approach to development, will continue to receive focus; there'll be continuous effort to evaluate the need and dimensions of the sector for more tangible interventions. In this domain, we expect the Start-up Village Entrepreneurship Programme to generate encouraging results in terms of rural employment creation by promoting enterprise establishment in 24 blocks across 11 states in the country.

The Institute's involvement with the tiny industries as also the SME sector will also be enhanced with more emphasis on promoting and sustaining existing SMEs. To aid the process of setting up of small enterprises and strengthening the campaigns of Digital India, Make in India, Swachch Bharat and Stand up India, the Institute will also launch short duration programmes on areas and aspects that many a time perplex entrepreneurs in the primary stage of floating a business. Some of these areas include; 'Ease of Doing Business'; 'Fulfilling Regulatory Compliances'; 'Certifications' etc. The faculty members also debated on strengthening social entrepreneurship and corporate social responsibility. In 2016, EDII undertook a Project - 'Mainstreaming of Social Entrepreneurship Education in India' – in partnership with University of East London (UEL) at the behest of British Council. Among other things, this has led to the possibility of EDII-UEL jointly offering three-tier, online certificate education programme in social entrepreneurship. So, if social entrepreneurship education is introduced with a fresh perspective, along with widespread training of entrepreneurs to ensure setting up of social enterprises, the gains will be manifold. Similarly significant is the need to upscale efforts in women entrepreneurship domain. The coming year will ensure this and will also come up with papers, making suggestions for policy introductions/changes to benefit women entrepreneurs.

All in all, the coming year seems to be promising with plans well laid out. We will also undertake detailed analysis at every step, as we progress towards our goal. We are sure, with people endorsing the importance of education and training in entrepreneurship, and with the Government keen on facilitating this discipline, we are certainly on the right track. Your support is always vital for us.

- Sunil Shukla
Director

The Institute

An acknowledged National Resource Institute for Entrepreneurship Education, Research, Training & Institution Building.

Entrepreneurship Development Institute of India (EDII), an autonomous and not-for-profit institute, set up in 1983, is sponsored by apex financial institutions - the IDBI Bank Ltd., IFCI Ltd., ICICI Bank Ltd. and the State Bank of India (SBI). The Government of Gujarat pledged 23 acres of land on which stands the majestic and sprawling EDII campus.

To pursue its mission, EDII has helped set up 12 state-level exclusive Entrepreneurship Development Centres and Institutes. One of the satisfying achievements, however, was taking entrepreneurship to a large number of schools, colleges, science and technology institutions and management schools in several states by including entrepreneurship inputs in their curricula. In view of EDII's expertise in entrepreneurship, the University Grants Commission had also assigned EDII the task of developing curriculum on entrepreneurship and the Gujarat Textbook Board assigned to it the task of developing textbooks on entrepreneurship for 11th and 12th standards.

In order to broaden the frontiers of Entrepreneurship Research, EDII has established a Centre for Research in Entrepreneurship Education and Development (CREED), to investigate into a range of issues surrounding small and medium enterprise sector, and establish a network of researchers and trainers by conducting a biennial seminar on entrepreneurship education and research.

In the international arena, efforts to develop entrepreneurship by way of sharing resources and organising training programmes, have helped EDII earn accolades and support from the World Bank, Commonwealth Secretariat, UNIDO, ILO, FNSt, British Council, Ford Foundation, European Union, ASEAN Secretariat and several other renowned agencies.

The Ministry of External Affairs, Govt. of India assigned EDII to set up Entrepreneurship Development Centers in Cambodia, Lao PDR, Myanmar and Vietnam and Uzbekistan. Five such centres in African region will be established very soon.

Sunil Shukla, Director
Ph.D. (Psychology)
Utkal University
director@ediindia.org

Interests include entrepreneurship education, corporate entrepreneurship and human resource management and behavioural science. His work in these domains has improved the entrepreneurial ecosystem and has helped enterprise growth and corporate strategy formulation. As a researcher and consultant, he has explored an expansive range of areas, including; entry barriers to entrepreneurship, curriculum development, intrapreneurship, family business management and organizational culture. He also leads the *Global Entrepreneurship Monitor (GEM) India*, which is the largest study of entrepreneurial dynamics. His entrepreneurship growth model for the Greater Mekong Subregion (GMS) countries has been recognized for ensuing development and trade in the region. Several organisations and Government Departments have him on their Governing/Advisory Boards.

Bipin Shah
BSc (Chemistry)
MBA (Finance)

Entrepreneurship Education & Research

Entrepreneurship education has been accepted the worldover as a potential area to inculcate entrepreneurial mindset, impart skills to successors of existing family-owned businesses, boost self-employment among youths, and thus promote economic development. EDII tapped this sector to make entrepreneurship all-pervasive with the launch of innovative programmes in this area. The core programmes include:

- **Fellow Programme in Management**
This programme encourages research in entrepreneurship policy to strengthen the theoretical exploration of existing entrepreneurship models
- **Post Graduate Diploma in Management - Business Entrepreneurship**
This two-year AICTE-approved course trains potential entrepreneurs to float own business or get groomed to take over family business.
- **Post Graduate Diploma in Management - Development Studies**
This two-year AICTE-approved course trains students aspiring to venture into the development sector or set up their own social enterprises.
- **Open Learning Programme in Entrepreneurship**
This one-year programme teaches all aspects of new enterprise creation to working professionals (willing to become entrepreneurs) who have limitation in terms of attending regular classroom lectures.
- **Faculty Development Programme**
These national programmes are offered to train faculty to create a cadre of resource persons who can teach entrepreneurship as well as develop curriculum for the same.
- **Summer Camps in Entrepreneurship**
These national camps for youth and children instil the spirit of entrepreneurship among children and youth at a young age and raise their aspiration levels by instilling entrepreneurial traits.

Strategy

- To popularise entrepreneurship by generating interest among students, the institute will plan entrepreneurial competitions and boot camps across states.
- Refining and developing curriculum on entrepreneurship will be especially focussed upon with emphasis on practical-orientedness.
- Large-scale, hands-on soft skills training in different trades will be initiated to increase the incidence of entrepreneurship at a time when the Government is putting in distinct efforts to promote start-ups.
- Specific groups such as mid-career employees interested in entrepreneurship, family business successors, women entrepreneurs, entrepreneurial managers, etc. will be especially targeted through online mode of skill training.

Centre for Entrepreneurship Education and Research

Vision:

**“To be an International Leader
in Entrepreneurship
Education and Research”**

Programmes and Activities

Sr. No.	Activity	Location	Duration	Target Group	Objectives & Outcome
1.1	On Campus Long Duration Programmes				
1.1.1 (a)	Fellow Programme in Management (FPM) 2014-18 (4th year)	EDII Campus	1 Year	Masters; Academicians/ Professionals	To motivate doctoral scholars to take up theoretical and empirical research work leading to policy papers and publications in journals of repute.

Micro Enterprises, Micro Finance and Sustainable Livelihood

Micro enterprises have long been key to the vibrancy of an economy. The sector makes a major contribution to the development and growth of India. Streamlining micro finance can further help harness the potential of the sector. Micro enterprises are considered as an effective tool for poverty alleviation and employment generation. In keeping with this understanding, the Centre has been pursuing the goal of ensuring growth with equity; mobilising savings and internal financial resources for productive enterprise activities; alleviating poverty, generating employment and thus promoting overall development. Micro enterprises are, therefore, being promoted both in urban and rural areas and throughout the length and breadth of the country. Considering that micro enterprises are severely constrained in terms of opportunities, finance and networking, EDII seeks to create an enabling ecosystem through capacity building, market linkages, convergence and also by ensuring appropriate financial product. The core areas of intervention include:

- Startup Village Entrepreneurship Programme (SVEP): It entails creation of rural entrepreneurs by developing a sustainable model for Village Entrepreneurship Promotion through integrated ICT techniques and tools for training and capacity building and enterprise advisory services. The programme is in operation in 24 blocks of 11 states and aims at promoting 30,000 enterprises over 2016-21.
- Traditional Industry Sector: These are Khadi, Village and other traditional industries. EDII is the technical agency for Scheme of Fund for Regeneration of Traditional Industries (SFURTI). The scheme has so far covered 3,500 villages.
- Handloom Sector: EDII is the National Resource Agency for Ministry of Textiles, Govt. of India sponsored cluster work in 158 handloom clusters covering 55,000 artisans.
- Skill Development: EDII, in partnership with PwC and NEBCON (the consulting arm of NABARD), is implementing skill development missions in Madhya Pradesh and Jharkhand. The work is supported by the Department for International Development (DFID).
- Non-Farm Producer Organisation: EDII is carrying out an advisory function for catalysing NFPOs on behalf of NABARD. Six NFPOs have been established till now.
- Training-cum-placement for unemployed youth in Jammu & Kashmir This is being promoted through a programme called HIMAYAT. Seventy-two thousand persons have been trained so far. EDII is assisting JKEDI in implementation.

Strategy

- Creation of microbusiness advisors/counsellors will be focused upon.
- IT-based application for Micro Enterprise Training and its performance monitoring will be developed.
- Pedagogical tools for training mentors and community-based counsellors will be evolved.
- Women entrepreneurship will acquire centrestage.
- Social enterprises, collectives and corporate social responsible micro enterprise development will be focused upon.
- Action research, documentation and strategy formulation will be taken up extensively.

Centre for Micro Enterprises, Micro Finance and Sustainable Livelihood

Vision:

“To become an acknowledged resource, action research and policy advocacy centre for institutions promoting micro enterprises, micro finance and sustainable livelihood”

SMEs and Business Development Services (SMEBDS)

Considering the role that SMEs play in income, output and employment, EDII has been undertaking projects to enable SMEs access opportunities in both developed and developing markets. The SMEs need to harness their potential in order to benefit from opportunities arising out of globalisation. This has necessitated for the sector to understand new regulations, penetrate new markets, upgrade technologies and production processes, strengthening funding options and in-house expertise. All of EDII's programmes under this thrust are designed to achieve these mandates, with special focus on strengthening knowledge-based and Science & Technology (S&T) driven enterprises. The core programmes/projects/areas of intervention include:

- **Sector-based Entrepreneurship Development Programmes (EDP)**
The institute conducts EDPs in different sectors to ensure New Enterprise Creation. A major sector addressed is food processing. Under this project, on behalf of the Ministry of Food Processing, Govt. of India, EDII organised entrepreneurship training and support for 11,000 entrepreneurs in 23 Indian states. EDII interventions ensure training to potential entrepreneurs, identification of business opportunities, preparation of project reports, setting up of new ventures and training of trainers to sustain the process of enterprise creation.
- **Science & Technology Entrepreneurship Development**
Since 2008-09, as national Nodal Agency of the NSTEDB, DST, EDII has been organising technology-based S&T entrepreneurship development programmes in 27 states to promote technology-based enterprises.
- **Programmes for Existing Entrepreneurs**
The institute addresses the concerns of existing entrepreneurs through programmes on Management Development, Skill Development, Enterprise Upgradation, Soft Skill Development and the like. Sector-specific growth programmes are also conducted. Industry interface is undertaken to increase the footfall of entrepreneurs on campus so that B2B linkages.
- **International Capacity Building Programmes**
Capacity building programmes on various aspects of entrepreneurship and are conducted for professionals from close to 150 developing countries.

Strategy

- With the new Government initiatives like Startup India, Stand Up India, Make in India, Digital India, etc., the environment is full of opportunities, with potential entrepreneurs eager to get acquainted to the nuances of doing business. Programmes with themes like Ease of Doing Business, fulfilling regulatory compliances etc. will be weaved around this objective.
- SME owner training programmes will be focussed upon on a large scale.
- Small enterprise creation space will be focussed upon with emphasis on vendor style manufacturing.
- State Governments will be assisted and supported by capacity building to undertake Entrepreneurship Development activities. A cadre of resource persons would be created with this mandate.

Centre for SMEs and Business Development Services

Vision:

“Become an International Resource Centre to institutionalise Entrepreneurship Development and Investment Promotion activities, so that 'world class entrepreneurs' are created and growth of small business enterprises is facilitated”

Programmes and Activities

Sr. No.	Activity	Location	Duration	Target Group	Objectives & Outcome
3.1	New Enterprise Creation				
3.1.1	Science & Technology Entrepreneurship Development Programmes (S&T EDPs) 11 nos.	Regional	4 Weeks each	Potential Entrepreneurs	To promote enterprises based on Science & Technology inputs in the country.

3.8.3 (a)	Launching of the First New Enterprise Creation (NEC) Programme	Selected Country (Rwanda)	3 phases stretched over 6 months	Potential Entrepreneurs	A group of 25 indigenous entrepreneurs will be developed to take up small business ventures in the country. The first programme will be launched to coincide with the inauguration of Entrepreneurship Development Centre (EDC).

Centre for SMEs and Business Development Services

- Developed a training model on Succession Planning for Entrepreneurial Continuity (SPEC) to equip wards of family business owners
- Instituted In-Company Executive Development Programmes to enhance managerial competence of executives
- Facilitated planned growth among established entrepreneurs by imparting training on functional areas of management
- Organised Regional/Product-specific Export Workshops for existing entrepreneurs
- Through capacity building programmes, trained Entrepreneur Trainer-Motivators for sustenance of ED activities at national and international levels

Sensitising Entrepreneurship Environment & Support System

- Carried out a study on 'Training Needs of Bankers' to gauge knowledge and skill gaps as perceived by bankers/financial institutions in dealing with SMEs
- Developed the draft of 'National Entrepreneurship Policy'
- Through training programmes on 'Credit Risk Assessment based on Project Appraisal and Entrepreneur Assessment', sensitised officials from banks/financial institutions
- Trained Small Industry Association Executives to play pro-active role as Business Development Service Providers

6,800 existing entrepreneurs trained and counselled for performance improvement

1,043 Entrepreneur Trainer Motivators trained at national and international levels

More than 240 scientists and technologists working in Government sector have been sensitised on entrepreneurship

11,100 entrepreneurs across 22 states trained in Food Processing; 5,463 units established; Investment made – ₹15,061 lakh; Employment generated - 19,221

280 Family Business successors trained

545 Business Counsellors developed

671 Corporate Executives developed under In-Company Executive Development Programme

3,089 officials trained through International Capacity Building Programmes

Cluster Competitiveness, Growth and Technology

Clustering is a phenomenon being widely encouraged to ensure economies of scale and scope to units working in a conglomerate. Inspired by UNIDO, EDII evolved the cluster development programme model and the concept of Cluster Development Executives' Programme to sustain the development initiated in clusters. EDII has worked in close to 250 MSME clusters in 15 states, thus improving technology, production processes, marketing, network, exports, energy saving, occupational health & safety, lean manufacturing, etc. With the state governments beginning to endorse effective organisation of cluster development work, EDII has been empanelled as project management consultant – think tank-cum-advisory and monitoring agency, by several state governments. The institute is project management consultant in West Bengal, Odisha & Bihar. Cluster development also necessitates capacity building of Business Membership Organisations (BMOs), a task in which EDII is actively engaged. The core programmes/projects include:

- **Facilitating Cluster Development as Project Management Consultant (PMC) /Cluster Management & Technical Agency (CTMA)**
As PMA/CTMA, the institute has been engaged by several state governments, such as West Bengal, Odisha, MP, Rajasthan, J&K and Chhattisgarh to introduce an integrated model of cluster development in selected clusters.
- **Cluster Development Programme Implementation**
The Institute is directly intervening in several clusters across the country, with focus on lean manufacturing, zero effect, zero defect, technology upgradation, productivity improvement, market/export development, etc. Clusters intervened comprise engineering, leather, dyes & chemicals, food processing, bearing, pharmaceutical machinery, jewellery, handicrafts & handloom, engineering, re-rolling, hume-pipes, rice-mills and coir products, etc.
- **Cluster Development Executives' Training Programme**
In order to impart sustainability to the cluster development efforts, the institute conducts programmes to create a cadre of cluster development executives who can concretise the efforts of development.

Strategy

- Will work towards evolving as a 'Centre of Excellence' in research, knowledge dissemination and policy advocacy in cluster development. EDII's cluster initiatives are pan India and the need is to institute collaborative and integrated efforts that can make the interventions even more impactful. Knowledge based institutional collaborations will be forged to capitalise on different strengths.

Centre for Cluster Competitiveness, Growth & Technology

Vision:

“To foster global competitiveness & growth of MSMEs in clusters through a range of technical, managerial, capacity building, handholding and advisory services”

Programmes and Activities

Sr. No.	Activity	Location	Duration	Target Group	Objectives & Outcome

4.6	Cluster Development with special focus on Technology Upgradation and Productivity Improvement				
4.6.1	MSME Cluster	Kerala	1 Year	MSMEs	Comprehensive development of the cluster in terms of soft and hard skills
4.7	Research, Publication & Seminar				
4.7.1	Research & Publication on Cluster, BDS & Value Chain	EDII	1 Year	Policy makers	Knowledge generation
4.7.2	Minor Research Project on EP for Orthopaedic Implant	Gujarat	1.5 Years	MSMEs in the Cluster	Technology development for the cluster

Accomplishments

Centre for Cluster Competitiveness, Growth & Technology

- Conceptualised Cluster Development Model to revitalise units working in an agglomerate
- Created a cadre of Cluster Development Executives (CDEs) to nurture cluster initiatives
- Introduced new technologies in several industrial clusters across the country
- Developed patents for transferring technologies to industries
- As Cluster Management & Technical Agency (CMTA) ensuring marketing, design and technical innovations as also consortium formation

799 Cluster
Development
Executives created at
national and
international levels

- Registered two Patents
- Applied for eight more patents

771 Cluster
Development Executives
created at national &
international levels

Revitalized
Handloom Cluster at
Sivasagar & Handicraft
Cluster at Srinagar

Social Entrepreneurship & Corporate Social Entrepreneurship

Against the backdrop that society needs social entrepreneurs as much as business entrepreneurs, this Centre spearheads social entrepreneurship through various projects and programmes to ensure emergence of entrepreneurs who come out with market-driven solutions plaguing society. EDII also assists/partners in CSR projects, ensuring reach of benefits to the grassroots to ensure sustainability of social initiatives. The main planks of CSR work are:

- Design (programme design): Companies, NGOs, others
- Delivery: Thematic, geographical, etc.
- Disclosure: Reports, Budget, etc.
- There is a requirement for trained professionals in all the three. The core programmes/projects of the institute comprise:
- Skill Development: The institute has taken up skill development initiatives on behalf of corporates, such as Hewlett Packard and Accenture, to name a few, to train individuals in different trades to make them employable or to impart competencies to enable them to set up own enterprises.
- Say YES to Sustainable MSMEs' supported by YES Bank– The objective of this project is to promote sustainable development of MSME operating in clusters through energy efficiency & occupational health & safety (OHS) measures.
- **Distance Learning Diploma in Social Entrepreneurship**
The programme is aimed at developing required traits and competencies to set up social enterprises.
- **Mainstreaming Social Entrepreneurship Education in India**
In partnership with University of East London, at the behest of the British Council, EDII has developed course modules in social entrepreneurship, to be offered pan India, in collaboration with institutes of higher learning.
- **Promotion of Social Entrepreneurship Across India**
Ministry of Skill Development and Entrepreneurship, Govt. of India, has signed an agreement with EDII to offer a diverse range of programmes and activities in the discipline.

Strategy

- Efforts will be geared towards widespreading social entrepreneurship through delivery of this component by way of academics, projects, seminars and programmes in institutes of higher learning across the country.
- Research will be promoted in the area to arrest the gaps, thus ensuring that the discipline gets an impetus.
- Offering a course in social entrepreneurship will become a priority.
- Networking will be strengthened with stakeholders, including the Government to impress upon them the need to promote social entrepreneurship.

Centre for Social Entrepreneurship & Corporate Social Responsibility

Vision:

"Achieve excellence in promoting social entrepreneurship among youth and extend benefits of Corporate Social Responsibility in the society to ensure inclusive growth"

Programmes and Activities

Sr. No.	Activity	Location	Duration	Target Group	Objectives & Outcome
5.1 Social Entrepreneurship					
5.1.1	Developing Course Material on Social Entrepreneurship	EDII Campus	Through-out the year	Participants of various programmes at EDII	Prepare study material which will be used for programmes on social entrepreneurship besides multiple other possible projects. (As per the requirement for MOOC and PM Yuva)
5.1.2	PM Yuva Yojana	Pan India	5 Years	Potential Social Entrepreneurs and Stakeholders in the Entrepreneurship Ecosystem	Promoting Social Entrepreneurship to facilitate inclusive and holistic growth of the local economy. Developing social entrepreneurs, creating a conducive eco system on SE.
5.1.3	Swachh Bharat Mission	EDII	Through-out the year	Entrepreneurs, Academicians, Students, NGOs	Create business opportunities and awareness.

Centre for Social Entrepreneurship & Corporate Social Responsibility

- Instituted a distance education programme in Social Entrepreneurship for imparting knowledge, education and skills to set up social enterprises
- Extended management, advisory, monitoring and execution support for the project, 'City Sanitation Planning & Implementation of Cleaner Cities', covering urban areas of Gujarat
- Created a cadre of trainers on Social Entrepreneurship
- Under CSR initiative of corporates, trained youth to set up micro enterprises.

178 students developed as social entrepreneurs

6,455 youths trained under CSR support from corporates

Women Entrepreneurship

Women, as entrepreneurs, don't come as a surprise anymore. Most states, such as Tamil Nadu, Kerala, Andhra Pradesh, West Bengal and Maharashtra account for an appreciable number of women-owned enterprises in India. EDII has been conducting programmes specifically targeting women so that women become a part of mainstream entrepreneurship community. The core programmes/projects include:

- **Women Entrepreneurship Development Programmes (WEDPs)**
Women have conditions typical to them which act as constraints in their devotion to pursuing an entrepreneurial career. While the WEDPs develop knowledge, skills and attitude in NEC, they also focus on addressing the hindering factors which affect women from taking the plunge. Also women are acquainted with business opportunities that they are comfortable with. Special WEDPs are also conducted for women with science and technology background.
- **Life skill programmes for Coastal Women**
These special programmes train women to engage themselves in business options and become financially stable and independent under 'Skill India' Programme.
- **Management Development Programmes**
These specially-designed programmes equip existing women entrepreneurs with knowledge on competitive business management skills.
- **Training & Development of Women Self-Help Groups (SHGs)**
The institute promotes and supports livelihood development programmes for the poor through SHGs.

Strategy

- Programmes will be conducted on a large scale, to train women as entrepreneurs and dissemination of work and research findings in the area will be taken up.
- Focus on interventions relating to capacity building of SHGs and CBOs will be enhanced.
- Policy advocacy to strengthen policies on women entrepreneurship will be undertaken.

Centre for Women Entrepreneurship & Gender Studies

Vision:

"To become an acclaimed centre for promoting women entrepreneurship and gender equality"

Programmes and Activities

Centre for Women Entrepreneurship & Gender Studies

- Provided access to better standards of living to disadvantaged rural households through womenSelf-Help Group (SHG) members
- Equipped potential women entrepreneurs on management aspects like business decision making
- Sensitised women scientists and technologists towards entrepreneurship
- Offered Management Development Programmes (MDPs) to existing women entrepreneurs
- Developed a cadre of Women Entrepreneur Trainer-Motivators (WETMs) at the international level

20 Senior Managers from SMEs in Malaysia imparted training on Entrepreneurship Skills

1,000 Women SHGs formed in Dhenkanal to promote livelihood development programmes for the poor

110 fisherwomen acquired skills in Spoken English, communication, computer literacy, office management and motivation

Developed a cadre of 60 Women Entrepreneur Trainer Motivators

83 Women Scientists & Technologists trained in Entrepreneurship

Research and Publications

The Institute has always encouraged Research and Publications have always received priority so that

- *Journal of Entrepreneurship* is being published regularly since 1992
- EDII is a partner in research and publication of *Global Entrepreneurship Monitor, India*
- EDII houses the Centre for Policy Research in S&T Entrepreneurship. The Centre has published several studies
- Faculty members have published 235 articles in peer-reviewed journals, conference proceedings, book chapters, research reports and other periodicals

Strategy

- In view of the recent Govt. policies and initiatives, such as Skill India, Digital India, Startup India, etc., research would be encouraged in micro enterprise development, SME development and areas that would help promote insights in New Enterprise Creation.
- Efforts would be directed towards evolving streams of research which are of contemporary relevance. Also the changing profile of entrepreneurs will be probed.
- In order to encourage amalgamation of entrepreneurship in school curriculum, course material preparation would be extensively taken up.
