For holistic development of children, they need to be provided with an environment that allows them to experiment with their thoughts, ideas and creativity. In the absence of right stimulus for growth, they will be limited in their ability to perceive, judge and reason. Putting in place the right system, mechanism and methodology to aid their growth can help make achievers out of children.

Over the last more than 30 years, through Summer Camp on Entrepreneurial Stimulation for Children, EDII has been giving a powerful platform to children across the nation to evolve, by introducing them to winning trades and competencies.

The National Camps have thus groomed 2730 children till date. This year the camp, 42nd and 43rd in the series, has been scheduled during 5 to 10 May, 2024 & 26 to 31 May, 2024.

Participants' Parents Opine

"I am glad to learn from my child that this summer camp didn't just focus on theoretical concepts; it provided practical experiences. My child had the opportunity to develop in the real sense. His response to crises has improved. He is more proactive about finding solutions rather than dwelling on the problems. His teachers are also appreciative of his class participation."
