Entrepreneurial Stimulation for Children

May 4 to 9, 2025 | May 24 to 29, 2025

Entrepreneurship Development Institute of India
Ahmedabad

For holistic development of children, they need to be provided with an environment that allows them to experiment with their thoughts, ideas and creativity. In the absence of right stimulus for growth, they will be limited in their ability to perceive, judge and reason. Putting in place the right system, mechanism and methodology to aid their growth can help make achievers out of children.

Over the last more than 30 years, through Summer Camp on Entrepreneurial Stimulation for Children, EDII has been giving a powerful platform to children across the nation to evolve, by introducing them to winning trades and competencies.

The National Camps have thus groomed 2730 children till date. This year the camp, **44th** and **45th** in the series, has been scheduled during **May 4 to 9, 2025 & May 24 to 29, 2025**.

My First Solo Flight & Entrepreneurship Journey!

You know those moments that completely change you? Found some old pictures from EDII Ahmedabad today, and wow - 8 months later, I still can't stop smiling looking at them!

Fresh out of 10th grade, when Mom and Dad suggested this entrepreneurship bootcamp, I was honestly scared. First solo flight, new city, everything! "Beta, it's time to explore the world," they said. Now I know why they pushed me. That morning at Nashik airport - checking my boarding pass a million times, probably annoying mom with constant photos. But the moment I reached EDII campus? Something just felt right.

I still remember Day 1 - being completely lost during the "What Makes a Person Entrepreneurial" session. By Day 2, MILLY (Most Important Lesson Learned Yesterday) session seemed like the scariest thing ever. Standing up, speaking in front of everyone? My heart was racing! But you know what's crazy? By Day 6, I was volunteering to go first! Each day taught me something new about myself. Understanding financial aspects wasn't just about numbers - it showed me I could actually grasp complex stuff. The creativity sessions? They brought out ideas I never knew I had! I spearheaded my team in economic activity with ideas like treasure hunt and portrait frame business(which won the first prize in terms of revenue collection) which came from one such brainstorming session.

The "Getting Success in Life by Bringing Out Hidden Talent" session hit differently. It wasn't just theory - we were actually discovering our strengths day by day. From problem-solving exercises to leadership activities, everything connected like pieces of a puzzle. Day 4's entrepreneur visit was eye-opening. Suddenly, all those business concepts we learned made real-world sense. Coming back to campus and working on our ideas felt different - more purposeful, more real. Those 5:30 AM wake-up calls (thanks to our persistent security bhaiya!), rushing for yoga by 6 - I won't lie, they were tough! But they taught me discipline I never knew I needed.

Looking at my Day 1 photo - nervous, unsure. Day 6? Standing there during the valedictory, presenting our business idea confidently. Same person, completely different energy! To every 10th grader reading this - scared of stepping out? I get it! But trust me, that first step? It changes everything.
