

INTERNATIONAL PROGRAMMES SPONSORED BY
MINISTRY OF EXTERNAL AFFAIRS, GOVERNMENT OF INDIA
UNDER ITEC PROGRAMME ON
“BUSINESS RESEARCH METHODOLOGY &
DATA ANALYSIS”

DURATION:
JANUARY 07 – MARCH 01, 2019

POST PROGRAMME REPORT

Organized by:
Entrepreneurship Development Institute of India
Via Ahmedabad Airport & Indira Bridge
P.O. BHAT - 382 428 Dist. Gandhinagar.

INTERNATIONAL TRAINING PROGRAMME ON “BUSINESS RESEARCH METHODOLOGY & DATA ANALYSIS”

Background:

Micro, Small and Medium Enterprises constitute a large share of enterprises in most countries and are cornerstone of economies. They are major source of employment and income in most countries. However, they need to be competitive to survive and grow in the present era of liberalized and digital economy, making national boundaries almost irrelevant. Most of the SMEs are inward looking and not very competitive. They merely survive and sooner than later, cease to exist. One of the reasons for this lackluster performance is their inability to access and analyze right kind of information for decision making.

Large corporates can afford to hire world class consultancy firms like McKinsey, Price Waterhouse Coopers, etc. whereas MSMEs find it almost impossible to afford them. These large firms get extra advantage, as the information generated by analysis of data collected using reliable research methodology, accurately serves the purpose of aiding them in making decisions under intricate situations. Also, data related to visitors of social media sites and navigation patterns on portals are widely used by large firms for predictive analysis. On the other hand, decision making at MSMEs is often based on ad-hoc methods or gut feeling making them more vulnerable to failures.

Although, globalization has led to increased competition, it also offers opportunities for expansion of business, for firms with strategic and competitive strengths. Furthermore, the size of firm does not matter. In this era of digital economy, business success is strongly associated with up-to-date information and knowledge of markets, consumers and competitors acquired using scientifically proven research methods. Business research is vital for sustainability of SMEs in global economy. To grab opportunities that globalization offers, MSMEs need information to support their decisions on target markets, product-mix, branding, consumer perception, trends, supply and demand forecasting and quality control.

Objectives

This training programme of 8 weeks has been designed for capacity building of SMEs in carrying out in-house research and analysis, to gain competitive edge for marching ahead successfully, in this time of cut-throat global competition. Theoretical background of research perfectly blended with practical exercises on business problems will provide better understanding of applications of basic and advanced statistical tools to the participants. Considering the financial limitations of MSME sector, this training would be conducted using Excel/SPSS/R for data analysis. The programme will enable participants to carry out research with tight budget and improve their proficiency in selection of analytical tools and interpretation of the statistical outcomes on Market Segmentation, Brand Research, Consumer Analytics, Trends and Forecasting, Perceptual Mapping etc., to solve business problems.

Target Group

The target group will comprise small business facilitators, entrepreneurs, middle and senior level executives of MSMEs, consultants/counselors & academicians, representatives of development institutions directly or indirectly involved in MSME promotion and functionaries of non-government organizations engaged in MSME promotion. Students pursuing research in Entrepreneurship, Marketing and Business Management can also benefit from this course.

COURSE CONTENT:

- Module 1 Fundamentals of Business Statistics
- Module 2 Business / Marketing Research Process
- Module 3 Data Management with CSPRO
- Module 4 Computer Aided Data Analysis (SPSS (PASW) / EXCEL)/R
- Module 5 Advanced Multivariate Statistical Methods
- Module 6 Trends and Forecasting (Time Series Analysis)
- Module 7 Reporting Research Outcomes
 Study Visit

Promotional work:

Looking at the specialized nature of the International programme and the target group, rigorous promotional work was undertaken to promote this programme. A detailed programme brochure was designed and mailed to relevant organizations functioning in ITEC/SCAAP countries. Support was also sought from participants of earlier programmes.

About the participants:

The promotional work undertaken resulted in a response from various International organizations. In all 19 participants from 8 countries registered for the programme.

Training methodology:

A unique mix of training methods was adopted. The pedagogy focused on development of knowledge and skills of the participants so that they can comfortably handle Data Analysis work when they are back to their respective organizations. Inputs were imparted through lecture-cum-practical sessions in the computer laboratory. In addition to this, discussions were organized to facilitate the participants in exchanging their opinions and sort out problems in the process of learning. The medium of instruction used was English.

Lecture-cum-practical sessions : Many topics the training were conducted in workshop mode comprising of presentation followed by hands on practice using SPSS and discussion on output generated using relevant data sets.

Group discussions: Group discussion is an important way in which participants involve themselves in training. Group discussions were designed and blended in to the programme to help the group in learning the subject through active participation. The programme schedule is given as Appendix-1

Group discussions: Group discussion is an important way in which participants involve themselves in training. Group discussions were designed and blended in to the programme to help the group in learning the subject through active participation. The programme schedule is given as Appendix-1

Duration & Venue:

This programme was organized at EDII campus during January 07 – March 01, 2019, both days inclusive. The participants were taken for Study-tour during February 05 – 08, 2019.

Course material:

Books on “Marketing Research: An Applied Orientation 7th Edition” by Naresh K Malhotra, “Marketing Research: Text and Cases 3rd Edition” by Rajendra Nargundkar, “Research Methodology – Concept and Cases 2nd Edition” by Deepak Chawla, “Statistical Analysis in Simple Steps using R” by Kiran Pandya and “Fundamental Concepts of Research” by Dr. R.S. Patel were given to the participants.

Outcome of the programme:

After this programme, the participants gained knowledge of Research methods & data analysis with SPSS. The participants were conversant with techniques of data organization, analysis, interpretation and reporting. Improvement in overall competency to pursue analysis without fearing the complexity of the design and analytical tools was evident. In short, the participants were prepared to successfully push forward the research agenda of the organizations they represented. The programme received encouraging feedback.

Programme feedback:

Every day the first 15 minutes were spent on discussing the learnings from the previous day classes. This was to ensure whether the participants received inputs as desired. It also provided a platform to the participants to clarify doubts, if any. In addition to this, at the end of the Programme a formal feedback was taken.

To obtain participants; feedback on all the sessions they were asked to rate each session on a five point scale (Excellent (5) – Poor (1)). The responses were

In short, the participants were prepared to successfully push forward the research agenda of the organizations they represented. The programme received encouraging feedback.

Programme feedback:

Every day the first 15 minutes were spent on discussing the learnings from the previous day classes. This was to ensure whether the participants received inputs as desired. It also provided a platform to the participants to clarify doubts, if any. In addition to this, at the end of the Programme a formal feedback was taken.

To obtain participants; feedback on all the sessions they were asked to rate each session on a five point scale (Excellent (5) – Poor (1)). The responses were

converted to weighted average and percentage score was obtained out of 5. The minimum rating was 91% and the maximum rating was 100% (see Appendix-2).

Conclusion

The programme concluded on March 01, 2019. The Programme Director presented an overview of the programme. Later, some participants expressed their views about the programme.

The participants strongly recommended that this programme should be encouraged as it will help in developing the required trained manpower to promote and strengthen data analysis requirement of their organization.

All the participants were awarded with a certificate by the Course Director. Ms. Bindu Prashanth ITEC Programme Coordinator - EDII delivered vote of thanks.

**ITEC SPONSORED INTERNATIONAL TRAINING PROGRAMME ON
"Business Research Methodology & Data Analysis"**
(January 07 – March 01, 2019)

Programme Schedule

1st Week

Venue: Adhyayan-II					
Date/Day	I Session (10.00 to 11.15 am.)	II Session (11.30 a.m. to 12.45 pm.)	III Session (2.00 To 3.15 p.m.)	IV Session (3.30 to 4.45 p.m.)	
07.01.2019 Monday	Registration & Briefing on Admn. Arrangements	Programme Introduction: Objectives/Inputs/ Clarifications, Expectations			Micro Lab
	(BP)	(JY)	(PB)	(AJ)	
08.01.2019 Tuesday	Country Paper Presentation	(JY/AJ)	Why Research & What is Research?		
	(JY)		(AJ)		
09.01.2019 Wednesday	Country Paper Presentation		Preparing a Research Proposal		
	(JY)		(AJ)		
10.01.2019 Thursday	Testing of Hypothesis				
	(JY)				
11.01.2019 Friday	Introduction to Entrepreneurship		Probability Theory		
	(PS)		(JY)		

JY: Dr. Jignasu Yagnik, **AJ:** Dr. Avdhesh Jha, **PB:** Dr. Pankaj Bharti, **PS:** Mr. Prakash Solanki
BP: Ms. Bindu Prashanth

MILLY (Most Important Lessons Learnt Yesterday): Everyday - 09.45 a.m. to 10.00 a.m.
Tea Break: 11.15 a.m. to 11.30 a.m. and 03.15 p.m. to 3.30 p.m.
Lunch Break: 12.45 p.m. to 02.00 p.m.

ANALYSIS OF FEEDBACK (Part-III)

1) Suggestions, if any – topics to be included in the programme and specific suggestions for improving the programme:

- a) A very good course from which acquired more knowledge on how to do research and analyze data using variety of statistical analysis programmes. Excellent sessions.
- b) Learnt the classic softwares and now well-equipped with the valuable knowledge from notable and knowledgeable Professors.
- c) Time allocated to research studies needs improvement, e-view SAS, STATA better to be included.
- d) More scientific research practical examples like Microbiology, Plant breeding and climate change for better understanding.
- e) The course was quite enriching indeed more especially for students who work in departments which are research based in terms of the day-to-day activities.
- f) Research paper should be started earlier in the beginning to give participants enough time to work on it.
- g) Extremely good to have undergone the course, an added value to the skills.
- h) Topics are well organised with excellent contents.
- i) Econometrics and modelling of equations need to be added to the course.
- j) Econometrics and modelling of equations need to be added to the course.

2) Your ratings of the facilities provided during the training.

		5 "Most Effective" to 1 "Least Effective"			Over all rating		
		5	4	3	2	1	Total
		15	4	0	0	0	19
		96	21	0	0	0	100
		%age					

3) Suggestions, if any - Food, Hostel/Hotel and other facilities

- Food provided was excellent, suggestion to put Freezer in the rooms to keep fruits.
- b) Excellent hostel facilities. Well-equipped institute & class rooms and made feel at home.
- c) Washing machine at every floor to help reduce congestion, Gym space is too small.

4) Your overall rating of the institute.

		5 "Most Effective" to 1 "Least Effective"			Over all rating		
		5	4	3	2	1	Total
		16	3	0	0	0	19
		97					
		%age					

5) A brief assessment of the course and your stay in India (100 words)

- a) Stay in India fantastic and people are kind-hearted, enjoyed culture of India.
- b) Course is useful and given better foundation in research. Good to have chosen EDII as destination institute for first travel to India.
- c) It has been an eye-opener and wonderful experience to learn and experience the Indian food, way of life, infrastructural development that adds to appreciate social-cultural differences and improvement in communities and society. Best practices to be carried back home to Kenya and model to suit Kenyan people.
- d) Excellent course. Stay in India was fantastic, great sociable people always willing to assist when called upon, language though presented a few challenges but gestures and patience came in handy for us. Loved enthusiasm of Indian people.
- e) Amazed by the level of professionalism and knowledge by the teaching staff, kindness and patience towards the participants is awesome.
- f) Profound stay in India and gained tremendous experience.
