# ENTREPRENEURSHIP DEVELOPMENT INSTITUTE OF INDIA

5-16- A 4

Shri Yashwant Sinha, Hon'ble Union Finance Minister and Chief Guest of the first Convocation of the institute's one-year Post Graduate Diploma in Business Entrepreneurship & Management (PGDBEM), delivering the convocation address.

Ms. Vasundhara Raje, Hon'ble Minister of State for Small Scale Industries, Agro & Rural Industries, Govt. of India, seen with latest EDI publications viz. 'Handbook for New Entrepreneurs' and 'How to do Business in India' presented to her during her visit to EDI on 4 February, 2000. The institue, on behalf of the Federation of Entrepreneurship Development Institutions submitted a 'Memorandum' reflecting its views to the Government on strategies to promote entrepreneurship at national level.

His Excellency the Governor of Gujarat, Shri Sunder Singh Bhandari delivering the inaugural speech while inaugurating the Entrepreneurship Development Course for Defence Personnel launched by EDI on 29th March 2000 in association with Directorate of Sainik Welfare & Resettlement, Gujarat state. The course was sponsored by Directorate General of Resettlement, Ministry of Defence, Gol.

# The EDI and its mission

#### THE INSTITUTE

The Entrepreneurship Development Institute of India (EDI), an autonomous body and not-for-profit institution, set up in 1983, is sponsored by apex financial institutions, the Industrial Development Bank of India (IDBI), the Industrial Finance Corporation of India (IFCI), the Industrial Credit and Investment Corporation of India (ICICI) and the State Bank of India (SBI). The Government of Gujarat pledged twenty three acres of land on which stands the majestic and sprawling EDI campus.

EDI today is an acknowledged national resource institution committed to entrepreneurship education, training and research; striving to provide innovative training techniques, competent faculty support, teaching and training material, besides sharing benefits of inhouse research as well as experience in relevant spheres.

EDI has been spearheading entrepreneurship movement throughout the nation with a belief that entrepreneurs need not necessarily be born, but can be developed through well conceived and well directed activities. This, in turn, led to the emergence of several training programmes, workshops and research projects under strategic thrust areas, thereby advancing the frontiers of theories and practices of entrepreneurship and effectively contributing to the nation's economic vitality.

Realising that such a gigantic task can only be accomplished with a collaborative effort, EDI has established linkages with a nationwide network of organisations and institutions committed to entrepreneurship development. Even though much has been realised, far more remains to be done and EDI continues with its mission of augmenting manifold the nation's aggregate capacity to develop its entrepreneurial potential.

#### A MATTER OF PRIDE

#### EDI is

- ✦ An Inter-Regional Centre for Entrepreneurship and Investment Training Sponsored by United Nations Industrial Development Organisation (UNIDO) & Govt. of India
- A National Facility for Science & Technology Based Entrepreneurial Innovations Sponsored by National Science & Technology Entrepreneurship Development Board (NSTEDB), DST, Govt. of India
- A Member of the Economic & Social Commission for Asia and the Pacific (ESCAP) Network of 'Centres of Excellence for HRD Research and Training'
- The winner of the prestigious 'Aga Khan Award for Architecture' for its campus for the year 1992.

# A glimpse into the achievements of EDI during 1999-2000

It is EDI's singular determination and global perception that has helped it master the changing contours of the business world and chalk out strategies for firms to identify and develop core competencies and strategic advantages. EDI's wellformulated and designed programmes are aimed at not just substantially benefiting established entrepreneurs but also potential entrepreneurs, students, government officers, bankers, trainers, rural poor, technocrats, consultants and women. Each year adds a new chapter of accomplishments in the history of EDI. The year 1999-2000 also witnessed a few landmark events. We are sure that the year ahead will also help us translate many a dream into reality and further strengthen the base for economic growth.

> V.G. Patel Vice-President & Director - EDI

The institute very proudly held the first convocation of its **Post-Graduate Diploma in Business Entrepreneurship and Management** on 27<sup>th</sup> July 1999. The occasion became yet more memorable with the presence of the chief guest Hon'ble Union Finance Minister Shri Yashwant Sinha. 54 young boys & girls were awarded Diploma in Business Entrepreneurship and Management. In the history of entrepreneurship movement in the country, the initiation and completion of the first ever post graduate education programme in entrepreneurship, very distinct from management education & conventional specialisations in functional management, is indeed a landmark.

The institute has also made its presence felt on the international front. The setting up of an Inter-Regional Centre (IRC) for Entrepreneurship and Investment Training has contributed a lot to the process of investment promotion and entrepreneurship development. Working on the path of its mission of developing and strengthening indigenous capacities of 46 selected countries in Asia, Africa & Arab regions, the IRC has benefited over 280 professionals from 25 countries. Focal Point Institutions (FPIs) have been identified in Kazakhstan, Bahrain and Botswana with a view to benefit a group of countries in a given region. Under the banner of IRC, some impact-making programmes have been conducted in the recent past. Sector-specific international training programmes titled 'Industrial Project Preparation & Appraisal' have especially received good feedback and provided a holistic approach to project appraisal, covering market analysis, technical analysis, financial analysis and environmental impact analysis.

The launching of the prestigious **ENTRIXIE Project** (Entrepreneurship Training & Information Exchange for Small Business in India & Europe) is a credit not just for EDI but also for the country. ENTRIXIE will encourage trade cooperation between the European countries and India. EDI is one of the partners in the project; others being - Training 2000, UK; BfZ, Essen, Germany; and BfI, Linz, Austria. The project was launched in India on January 8, 2000. Hon'ble Industry Minister, Govt. of Gujarat, Shri Sureshchandra Mehta, was the chief guest for this occasion that promised success to all those 500 entrepreneurs who have come forward to explore the project. This project will serve as a focal point for information mobilisation and dissemination on

enterprise-to-enterprise investment opportunities. To begin with, SME entrepreneurs of Gujarat and Karnataka will be targeted at.

EDI has been organising **National Convention of Entrepreneur Trainer-Motivators (ETMs)** with a view to listing the problems related to conducting EDPs and providing a platform for interaction among field trainers and ED professionals so that they share their rich and varied experiences, thus reaching result-oriented decisions. In the year 1999-2000 the National Convention of ETMs was organised on 27<sup>th</sup> November 1999. The convention helped the participating ETMs, teachers and chief executives of ED organisations deliberate on the efficacy of current practices adopted and evolve a long term plan for growth and success of ED related activities on a sustainable basis.

The EDI instituted National Awards for Entrepreneur Trainer-Motivators is a great step towards recognising the contribution of ETMs in giving an impetus to entrepreneurship development movement in the country and to the creation of entrepreneurs. This year, the awards went to Mr. Sunil Chandak, Director, Udhyogwardhini, Nasik, Maharashtra (First winner) and Mr. Rakesh Kumar Thakur, Programme Co-ordinator, Gandhi Seva Ashram, Mungeli, Madhya Pradesh (Second winner).

17th January 2000, brought in another laurel for EDI as it was adjudged the best entity for **Presentation of Annual Report and Accounts** for the year ended 31<sup>st</sup> March 1999 by the Institute of Chartered Accountants of India, New Delhi.

During the year, under its various thrust areas, EDI organised several impact-making programmes. Development of rural areas has been one of its prime concerns and on this front, its activities encompass a range of skill development programmes to make rural people self-sustaining. The institute has conducted several rural entrepreneurship development (RED) programmes to exploit indigenous opportunities for suitable economic development. These RED programmes have proved to be very useful in terms of generating self-employment and micro-enterprise creation. Further, in order to develop viable and selfsustaining enterprises in rural and urban areas, the institute orgaised a Rural Industries Programme (RIP) **Convention-cum-Exhibition** at Hazaribag on 19<sup>th</sup> July 1999, which was inaugurated by Hon'ble Union Finance Minister, Shri Yashwant Sinha.

The institute has also been conscious of developing and promoting small & medium enterprises (SMEs) that have the advantage of adaptability and flexibility, vital for maintaining competitive edge in the international market. To equip SMEs with knowledge on international business environment, the institute has been organising a series of region/product specific export workshops. The workshops on 'How to do Business with South Africa and Australia' were organised to promote business relations between Indian entrepreneurs and these countries. We have received positive feedback from participants as most of them decided to initiate concrete measures for export business. They stated that the workshops gave them clear ideas about the support system and its policies for export promotion.

The Institute, on behalf of the Federation of Entrepreneurship Development Institutions, submitted a **Memorandum** to Ms. Vasundhara Raje, Hon'ble Minister of State for Small Scale Industries, Agro & Rural Industries, Govt. of India. EDI has put forth its views to the government on strategies to promote entrepreneurship at a national level. Against the backdrop that poverty and unemployment are live issues on the political agenda of the country, EDI strongly believes that Entrepreneurship Development Programmes, which create new enterprises through the unique Indian approach of identification, motivation, training and counselling, yield one of the best results in terms of investment, output and employment generation for every rupee spent.

EDI has established this fact by successfully organising a number of training programmes for potential entrepreneurs. Therefore, in the proposal submitted to the Minister, the Institute, amongst others, has recommended to set up an Entrepreneurship Development Fund (EDF) of Rs. 75.00 crore for various Entrepreneurship Development and Capacity Building Programmes. This, EDI believes, will lead to the creation of 72,000 new enterprises and 2,20,000 productive jobs.

Further, it is worth mentioning that necessary training inputs in this direction could be sought from a regional network of national entrepreneurship institutions, which already exists. This comprises : EDI - Ahmedabad, NISIET - Hyderabad, NIESBUD - New Delhi, IIE -Guwahati and 9 state level institutions i.e. Institutes/Centres of Entrepreneurship Development (IEDs and CEDs).

# Faculty Profile

# Dinesh N. Awasthi, Ph. D. (Economics) Gujarat University Chief Faculty

An economist with extensive experience in evaluation studies and policy research. Responsible for planning and co-ordinating micro enterprise development and microfinance related activities through NGOs. Currently heading the Rural Entrepreneurship Development Division of the Institute.

#### Lourdes P. Baptista, M.Com., LL.B.

#### Associate Senior Faculty

Specialises in financial management, accounting systems and legal framework of NGOs, with almost two decades of direct involvement in the NGO sector. Currently, besides teaching, looking after the NGO Management stream of PGDBEM and also involved in the area of Micro Finance Development.

#### Arupjyothi Rai Baruah, B.E. (Mech), PGDRM (IRMA) Assistant Faculty

Four years of experience in Public Sector & Corporate House in the field of Production & Marketing. Currently involved in promotion of Rural Industries through technology and marketing inputs.

#### Raman Jaggi, P.G. Dip (Rural management) Associate Senior Faculty

Involved in institutionalising sustainable development process in grass-root micro-enterprise/finance institutions. Specialises in small enterprise consultancy, business opportunity guidance & cluster-oriented SSI development. In-charge of EDI Northern Region Office in Lucknow.

#### KVSM Krishna Ph.D. (Economics), IIT, KGP

#### Associate Sr. Faculty

An economist involved in teaching Economics, Entrepreneurship and Strategic Planning, Value Systems and Multinational Management. His economic research has spanned a variety of topics including human relations at doctoral level, transactions costs, sectoral policy analysis, irrigation management and tenancy agreements, entrepreneurship and small business, turnaround strategies and quality standards in management education. Currently looking after the PGDBEM course at EDI.

#### Prabhat Labh, PGDFM

## Indian Institute of Forest Management, Bhopal Assistant Faculty

Specialises in Forest Management. Extensive work experience in NGO sector, Agriculture Development and Watershed Development Projects. Authored several papers on agriculture development and NGO-Government collaboration. Currently involved in organising micro enterprise development programme and teaching in NGO management stream of PGDBEM. Course leader for the papers "Management of Development Initiatives" and "Social and Rural Marketing".

# **Umesh K Menon,** M.Com., MBA (Finance), Grad. C.W.A. Assistant Faculty

Specialises in the areas of Finance and Accounts with 6 years experience in Government and Industry. Presently involved in counselling existing entrepreneurs for growth, training Bankers and Investment Promotion Officers in the area of project appraisal, teaching finance, accounts and small business management in PGDBEM course. As Project Director, Entrepreneurship Training and Information Exchange for Small Businesses in India and Europe (ENTRIXIE) Project, involved in partnership promotion between Indian and European Entrepreneurs.

#### Rahul J. Mitra, M.A. (Psychology) Assistant Faculty

Specialises in providing training support to Development Organisations in the area of Micro-Finance and Entrepreneurship Development. Has field level experience in training, research and project management in income generation and health programmes.

# **B.P. Murali**, PGDM, Indian Institute of Management, Ahmedabad *Chief Faculty*

Specialises in enterprise growth, small enterprise development, business plan formulation and sick industry rehabilitation. Involved in designing and conducting programmes for trainers, business counsellors, bankers, investment promotion and existing entrepreneurs in India and abroad. As Project Director, looking after the activities of the Inter-Regional Centre for Entrepreneurship & Investment Training. In-charge of EDI Southern Region Office in Bangalore.

#### V. Padmanand

# M.Phil., CRENIEO, M.Phil., Cambridge, UK, PGDMM *Faculty*

Economist specialising in business economics and management, applied macro economics and environmental economics; currently engaged in research, consultancy and programmes related to growth and business strategy of small and medium enterprises. Elected to the status of fellow in national and international bodies.

#### Sanjay Pal, M.Sc.(Economics), MBA (Marketing) Assistant Faculty

Marketing experience in the corporate sector. Specialises in marketing, involved in devising strategies for marketing of rural products. Associated with research study on most industries in Gujarat & business development services in Calcutta. Presently involved in developing training programmes on strategic marketing & transfer of technology.

#### Abhinav Paranjpe, M.Sc. (Computer Science)

#### Associate Faculty

Seven years experience in networking and communication, software development and training.

#### V.G. Patel, Ph.D. (Economics) Wisconsin Vice-President & Director

Economist and International figure in the sphere of entrepreneurship, small industry policies and growth management. Has been the Chief Economic Advisor to Gujarat Industrial Development Corporation and Managing Director of Gujarat Industrial & Technical Consultancy Organisation Limited. Has authored several books and reports on entrepreneurship and small industries related subjects.

#### C.R. Patnaik, PGDM

#### Associate Faculty

Twelve years of experience in conducting Rural Entrepreneurship Development Programmes. Currently involved in imparting behavioural input in REDPs.

#### S.B. Sareen,

Diploma in Textile Technology, D.I.M., D.I.M.O. (Hons.), D.M.M. *Faculty* 

Has seventeen years of experience in conducting entrepreneurship related training programmes for New Enterprise Creation, Business Counselling and Growth for Existing Entrepreneurs. Specialises in training resource persons (trainers) at national and international level.

#### Nabarun Sen Gupta,

M.A. (Social Work), BSW (Bachelor of Social Work) Associate Faculty

8 years of experience in providing conceptual and functional support to NGOs in management of non-profit organisations, developing training modules and conducting training programmes. Involved in field based research on processes involved in Institutional Initiatives and Reforms in Management of Forest. Presented Papers at national and international level.

#### Sunil Shukla, Ph.D (Psychology), Utkal University Associate Senior Faculty

Psychologist specialises in Entrepreneurship Education, Organizational Behaviour, Human Resource Development and Corporate Entrepreneurship. Currently involved in Executive Development Programme for corporate houses. Involved in organizing programmes on personality development, motivation, leadership, personal effectiveness, managerial competencies, and organisation development. Research work on curriculum of entrepreneurship, entry barriers to entrepreneurship and new selection & motivational tools for potential entrepreneurs

# K.K. Shaw, B.E. (Hons.) Mechanical, PGDBM *Faculty*

Specialises in the areas of metallurgy, metal science, heattreatment, surface engineering, design engineering and failure analysis investigation and corrective action of mechanical components. More than 25 years of experience in transfer of technology from advanced countries to India.

# **B. B. Siddiqui**, Ph.D. (Psychology) Gujarat University Senior Visiting Faculty

Psychologist specialising in Clinical and Organisational Psychology. Trained to conduct Personal Growth Laboratory Training Programmes and Group Dynamics. Currently involved in programmes on HRD, Organisational Behaviour, Personality and Leadership Development. A registered Counsellor-Psychologist with Rehabilitation Council of India, New Delhi

Naresh Singh, M.Phil. (Sociology), Ph.D., Institute of Advanced Studies, Meerut University Faculty

Specialises in Rural Finance & Rural Development. Receipient of UGC research fellowship. Associated with micro finance sector since almost a decade. Extensive experience of managing developmental projects and working with NGOs and research institutes. Participated in the Advanced Training Programme on Micro Finance jointly organised by Micro Finance System Pvt. Ltd. & Foundation for Development Co-operation in University of Queensland, Brisbane - Australia. Currently involved in NGO capacity building, teaching and micro finance and micro enterprise development.

#### Pramod Srivastava, M.A. (Economics)

#### Assistant Faculty

Specialises in promoting micro enterprises in rural areas and provides extensive back-up support to NGOs in their capacity building.

#### P. N. Srivastava, M.Com

Faculty Associate

Has work experience with Agriculture Finance Corporation as an 'Investigator'. At present involved in REDP activities.

#### V.S. Sukumaran, LL.B., PGDHRD, PGDTD, PGDM Associate Faculty

Currently involved in training potential as well as established entrepreneurs and providing resource support to NGOs.

#### Mayank Upadhyay, ACWA

Senior Visiting Faculty

Specialises in the areas of finance, and strategic management project planning with extensive experience in Development Banking and Commercial Banking. Involved in conceptualizing and conducting a number of national and international programmes in corporate financial strategy formulation and management, investment decisions and management accounting and control system.

#### Kirti Vakil, B.Com.

Faculty

More than two decades of extensive field experience in promoting the concept of self-employment among youth at the grass-root level. Specialises in Entrepreneurship Development Training. Expertise in Institutionalisation of REDPs through voluntary organisations.

# Entrepreneurship in Education

Entrepreneurship is widely perceived to be the way out of stupefying under-employment and unemployment levels in the domestic economy. Subsidized higher education, oft, to the relative neglect of basic education, has its pros & cons. Most important, being the concomitant phenomenon of highly specialized and qualified professionals languishing in a market epitomized by sustained recession, and low capacity to absorb skilled manpower. The same contributes to the brain drain from the sub continent and significantly increases the levels of public expenditure and 'dole' by the Centre. Re-orientation of graduate curricula with the active support of the Department of Science & Technology, particularly in management and technical schools of learning, is a thrust of the institute. The objective is to make education more application-oriented offering greater potential to assist the future unemployeds launch fast-growing and sustainable start-ups that could serve as a salve against unrest in society. This would simultaneously contribute towards development of indigenous R&D. Empirical evidence has also proved that small entrepreneurial start-up firms contribute most towards technological innovation and efficiency in the industrial arena. EDI, while pursuing its mission of introducing entrepreneurship curricula in all institutions of higher learning in the Indian sub-continent, continues initiating expert interventions in the policy formulation plane. The support of the UGC for wide spread dissemination of EDI learnings, and the unique one-year 'Post-Graduate Diploma in Business Entrepreneurship & Management' could both help in promoting EDI's vision in this thrust area. The 'Academy of Achievers' being developed by EDI is expected to serve as a demonstrative frame of reference for the Indian tycoons of the millennium.

The EDPs conducted by the institute offer unique exposure to academicians from across the country to develop entrepreneurial vision amongst the student community. The national summer camps for children and youth are being progressively regionalised. The institution has also developed several video films and serials related to entrepreneurship, which have been telecast over the national television network. Several research studies including one on 'Entry Barriers to Entrepreneurship', are being pursued by EDI experts. EDI's biennial seminar on 'Current Trends in Entrepreneurship Research' serves as a fora for the national diaspora of experts in the field to come together and explore necessary interventions on the research, training and counselling front.

#### Achievements in this thrust area

|   |   | Post Graduate Diploma in Business Entrepreneurship and  |                  |

# Micro Enterprise and Micro Finance Development

Micro Enterprise Development and Micro Credit Delivery Mechanism are buzzwords of the coming decade. With contemporary financial institutions and bankers progressively shying away from 'priority' sector lending, the development of orientation towards micro enterprise and micro credit delivery systems remain a vital imperative. One option is to develop commitment & competence within the support system as to efficiently evaluate and manage the micro-lending schemes, and the other is to develop self-help groups and other mechanisms by which potential and existing micro enterprises could help themselves. Both options, however, require focused initiatives by policy implementors. EDI experts with international exposure towards micro enterprise development and micro-credit delivery modalities are progressively playing a significant role in establishing such concepts throughout India, neighbours in South Asia, the Middle-East and East Africa under the aegis of the UNIDO, progressive ministries and developmental bankers in the respective regions. Rural Marketing and NGO-Banker Interfacing are regular fare of the EDI's capacity building interventions. Research initiatives and documentation of EDI's success stories in this field will progressively encourage other countries to make use of EDI expertise.

EDI's partnership with NGOs throughout this sub-continent has ensured that the remotest corners of the country are benefiting from the EDI-EDP model on micro enterprise development. EDI is also developing rural business counsellors as to hasten the movement towards the creation of sustainable micro enterprises. In a country where 90 per cent of small units are essentially tiny in scale of operations, the significance of the missionary-like pursuits of the team working in this thrust area is tremendous. EDI's plan to launch a specialised one-year Post-Graduate Programme on Management of Non-Government Organization (PGDMN) can also serve to develop facilitators who may support EDI's vision in this front. Specialized management related programmes such as ones in the area of rural marketing, are also being conducted on a continuous basis.

The bankers' awards offered by EDI serves as a moral booster to bankers concerned with micro enterprise development. The SIDBI and NABARD sponsored REDPs and rural industry projects promote and support micro enterprises and NGOs. Cluster based EDPs focusing on technology upgradation and provision of marketing support has been developing hundreds of micro-enterprises in the country every year. The National Meets of Rural Entrepreneur Trainer-Motivators, rural entrepreneurship development strategy workshops and the micro finance and micro credit delivery system programmes serve as pace-setters in the RED movement.

Target: Study of RED<br>implementing NGOs /Trained Entrepreneurs/Trainer-<br>Motivators all over the country.          |

# Performance and Growth of Existing Entrepreneurs

The dynamics of global integration in the economic, financial flows and industrial front merits serious consideration. Economies with leanings towards manufacture and near-primary commodity export, to sustain necessary imports, require structural reorientation. Similarly, the collapse of the 'Far-East Asian Tigers' has indicated both the fraility and the threats to economic systems progressing towards free marketisation. Hence, the survival and efficient growth of enterprises need be targetted in tandem with interventions related to favourably orienting institutions, policy and systems of monitoring and regulation.

EDI expertise on the research, consultancy and training front is synergistically pursuing interventions as to favourably target the issues in enterprise survival and growth. Recent policy pronouncements have laid emphasis on cluster based developmental initiatives. As a matter of fact, the very survival of several clusters in India is in itself a question. East-Asia is competing on costs in sectors including textiles, sea-food, and leather, for example. The nation needs to imbibe best manufacturing practices from these 'Easterners'. They have taken sub-contracting, out-sourcing job-working, and reducing fixed labour overheads to stellar heights. Efficiency in all functional areas of management is ensured. Also, policy and structures in countries in the region have ensured that export-based manufacturing industries operate through a handful of large trading houses, merchant exporters and consortias. This has lent them tremendous bargaining leverage and capability to withstand market and raw-material related risks. EDI has hence been focusing on both efficient management training at the cluster and sectoral level, and on re-orienting policy and structures from the macro-angle in pareil.

In the light of the above, EDI projects and programmes in this thrust area is progressively focusing on holistic and sustained initiatives at the cluster level through 'Growth Programmes'. We may still beat the East and South-East Asians in their own game !

EDI has also been conducting in-company programmes on developing intrapreneurial managers and support professionals capable of employing Information Technology in SMEs. The Succession Planning for Entrepreneurial Continuity (SPEC) programme of EDI is widely acclaimed as a rigorous grinding phase that all successors of family business must undergo such training prior to taking over reins. EDI's learnings over intense counselling sessions with entrepreneurs have lent it unique competence in offering ideal policy interventions for growth of the industrial economy, the WTO and 'globalisation' notwithstanding.

#### Achievements in this thrust area

# Performance Improvement of ED Organisations and ED Programmes

EDI has formally assumed responsibility for guiding all Entrepreneurship Development activities in India. A Federation of Entrepreneurship Development Institutions (FEDI) has been formally established under the Chairmanship of Dr.V.G. Patel, who has fathered the entrepreneurship movement in India and internationalized the same for the benefit of other developing countries. The Federation is also working towards creation of a sizeable ED fund as to channelise all significant ED related activities. Enlightened policy makers in the centre are keen on formalising the schemes developed by the Federation. The development policy as visualised by EDI does not merely seek enhanced level of subsidy for related activities but lays stress on creating an enabling environment for Entrepreneurship at the grass-roots. The multiplier effects on industry and economic growth will be tremendous, while the institution has ensured the establishment of state-level Entrepreneurship Development Bodies in the country, its institution building initiatives is contineously being sought by several states.

For effective organisational development and for ensuring tangible impact of institutional activities EDI regularly organises Capacity Building Programmes for Trainer-Motivators. EDI's 'Best ETM Awards' has offered a fillip to the best and most dynamic of trainer-motivators. In order to encourage higher levels of cooperation and development synergies between state level institutions and EDI's projects throughout the sub-continent, EDI organises Annual Meets of Directors and Chief Executives of state level ED institutions and national trainers. The pioneering Open Learning Programme in Entrepreneurship (OLPE) which was launched as to facilitate the process of NEC nation wide, is currently being internationalized in the Middle-Eastern and East-African regions of the globe.

# Entrepreneurship Environment and Support System

Adhering to international accounting standards and 'attempts' at de-dressing non-performing asset portfolios alone do not make financial institutions efficient. Further, financial institutions need to offer advice on not mere textbook financial risk-analysis in accounting terms, but also develop into competent counsellors in the field of opportunity guidance, project conceptualisation, appraisal, implementation and management. Mere presence on the advisory boards of enterprises and a 'shylock-like' attitude towards project financing portends disaster for both financial institutions, given competition, as also their clients.

Retrenchments in support departments and pleas for grants for support of ED institutions are not solutions. Institutional efficiency is ensured by hard and soft skill competency development of personnel, and hardly by cutting costs or surviving on dole. In order to make tangible inroads in this arena, appropriate training interventions and pro-active workshops have been designed. EDI's expertise in entrepreneurial start-up, rehabilitation and growth has lent it unparalleled competence in developing modalities for capacity building on this front. The channelisation and focus of activities on this front has been on ensuring synergies between 'diverse' portfolios of policy-makers, implementers and potential & existing entrepreneurs.

The institution has been organising several programmes on 'Project Appraisal and Entrepreneurship Assessment' targetted at appraisal officers of financial-institutions and trainers of ED organisations. Under UNIDO auspice the institution also organises several in-house programmes for bankers on financial and economic analysis of industrial and infrastructure projects employing UNIDO software packages.

# Strategic International Programmes

The UNIDO-Gol sponsored Inter-Regional Centre (IRC) for Entrepreneurship and Investment Training that has been set up at the institute, focuses on internationalizing EDI's initiatives in all its thrust areas. The institute has been developing indigenous capabilities of select developing countries in the Asian, African and Arab regions in the areas of Entrepreneurship and Investment Promotion. Focal point institutions are being developed in Mozambique, Behrain and Sudan as to institutionalise EDI's expertise across 43 countries of the globe. Under the aegis of the IRC. EDI has been striving to create tangible impact in the Middle Eastern, African and Asian regions through its pioneering interventions, intra-institutional tie-ups and global business partnerships through EDI and UNIDO efforts.

EDI has also been vested the responsibility of removing information asymmetries between entrepreneurs in India and Western Europe. The European Union assignment under the enterprise networking EXTRIXIE (Entrepreneurship Training and Information Exchange for Small Businesses in India and Europe) project is also expected to promote joint ventures in terms of technological, financial, systems and marketing tie-ups between SMEs in India and those in UK, Germany and Austria. Under the project, EDI will also for the first time in India is employing advanced educational systems such as; the TULIPS methodology that has been successfully utilised for participative learning amongst widely dispersed entrepreneurs.

EDI in its international projects has been focussing on developing domestic competitive advantage of countries and encouraging trade and investment partnership in this context. The developed and developing countries in the world may find a saviour in the guise of EDI.

Millions of people and tens of thousands of entrepreneurs employed in the core sectors of leather, engineering, agro projects, electronics, textiles, marine products, and IT in general has EDI's guiding hand working at both the enterprise and the policy-making levels, throughout the developing world.

### Innovation Centre National Facility for Science & Technology based Entrepreneurial Innovations

National Facility for Innovations sponsored by the National Science & Technology Entrepreneurship Development Board (NSTEDB), DST, Government of India set up at EDI, serves a bridging role between the laboratory and the entrepreneurs. The mission of the Innovation Centre at EDI is to encourage the evolution of technology driven enterprises. The Centre's data bank on projects and technology profiles are disseminated through product specific workshops being held across the nation. Specialised hitech EDPs, technology upgradation programmes for existing entrepreneurs exploring diversification are the regular fare offered by the Centre. The Centre is developing video-films on S&T based products & processes in close interaction with industry associations. The Centre is also fast developing into an international technology source and transfer-base under the aegis of EDI's international activities, West European, African and Asian countries are expected to be benefited. The Centre is hence also expected to serve as a clearing-house for technology transfer by SME owner-managers.

# Centre for Research in Entrepreneurship Education and Development (CREED)

The Centre has been vested with the responsibility of serving as a bridge between academia and training and consultancy in the field of 'Entrepreneurship'. Applied research and consultancy need be effectively supported by solid theoritical insights, if the entrepreneurship movement needs to be institutionalised throughout the globe. The Centre encourages enquiries into education, innovations in training methodology, impact of industrial policies, rural entrepreneurship and innovative credit delivery system in the field of Entrepreneurship. Several research projects believed to be crucial to the growth of small & medium enterprises have been initiated by the Centre.

One of the major objectives of the Centre is to catalyse the process of building network of researchers and institutions in the sphere of entrepreneurship. 'The Journal of Entrepreneurship', the reputed academic publication of the Centre, has established its credibility and identity among scholars in India and abroad as a unique forum to disseminate their valuable research findings, both theoritical and empirical to the academic fraternity at large.

Further, the Centre, through its short term research fellowships programme, encourages young researchers to make use of the intellectual and other resources at the Centre in their pursuit to extend the frontiers of knowledge of entrepreneurship.

CREED envisages to promote collaborative research endeavours with institutions and individuals outside the Centre. It organises a national seminar biennially, where scholars from across the country come togather to share their views on issues related to entrepreneurship that are of contemporary relevance and interest.

Annual Lecture Series by eminent entrepreneurship theorists and practitioners on specific themes is also on the agenda of the Centre.
