For holistic development of children, that allows them to experiment with their thoughts, ideas and creativity. In the absence of right stimulus for growth, they will be limited in their ability to perceive, judge and reason. Putting in place the right system, mechanism and methodology to aid their growth can help make achievers out of children.

Over last 30 years, EDII has been giving a powerful platform to children across the nation to evolve, by getting them to know their own personality, the factors that affect development and by imparting them a perspective that shapes their behaviour and responses to different situations.

EDII has been conducting **Summer Camp on Entrepreneurial Stimulation for Children** with this objective. It has groomed 2511 children through these National Summer Camps till date. Parents' Opine...

"My daughter had an amazing experience at the Summer Camp held at EDII. She has developed qualities and abilities which reflect in her personality and I am sure that these would help her in the long run. Her problem-solving abilities, confidence and the spirit 'to be different' are remarkable. I would like to thank EDII for this insightful experience."

- Dr. Chirag Desai

I am happy that I selected EDII's Summer Camp for my son. Today he is a happy child and moves ahead with the belief that nothing is impossible. We could see a conspicuous change in his approach to life after his return from the camp. He is optimistic and believes in dealing with everything that comes his way.
