CANDIDATE'S DECLARATION

I hereby certify that the work which is being presented in the thesis entitled, “**Understanding Usability and Applications of Appropriate Technology in Indian Agriculture Sector with Reference to Entrepreneurship**” in partial fulfillment of the requirements for the award of the Fellowship Programme in Management and submitted to the Entrepreneurship Development Institute of India, Ahmedabad, Gujarat is an authentic record of my work carried out during a period from July 2015 to June 2019 under the supervision of Dr. Sanjay Pal, Former Professor, Entrepreneurship Development Institute of India, Ahmedabad, Gujarat, India.

The matter presented in this thesis has not been submitted by me for the award of any other degree of this or any other Institution.

Shah Nawaz Ashraf

This is to certify that the above statement made by the candidate is correct to the best of my knowledge.

Amit Kumar Dwivedi

Supervisor

Date: 20.01.2022

* From July 2015 to February 2021, Dr. Sanjay Pal was his guide. Dr. Sanjay Pal left the Institute on 26/2/2021. From March 2021 onwards, Dr. Amit Kumar Dwivedi is a Thesis Supervisor.

CERTIFICATE

This is to certify that the Fellow Programme in Management (FPM) Thesis titled **"Understanding Usability and Applications of Appropriate Technology in Indian Agriculture Sector with reference to Entrepreneurship"** submitted by **Shah Nawaz Ashraf** (enrollment no. **2015FPM03**) has been run through the "Turnitin Originality Check" plagiarism detection service on February 8, 2022.

Summary of Thesis Tested for Similarity

Total length of Thesis run for Similarity Index (SI) test	143 pages
Content included for SI	Introduction; Review of Literature; Research Methodology; Results and Discussion of Secondary Data; Results and Discussion of Primary Data and Concluding Remarks and Policy Suggestions
Content Excluded for SI	Preliminary Pages; References; Questionnaire and Tables

A similarity index of 4% (Four Percent) excluding 11% (11 Percent) of self-plagiarism was detected. The detailed "Turnitin Originality Check" report is enclosed.

The below documents supporting for excluding self-plagiarism are also enclosed.

1. No Objection Certificate from Co-author of the published paper;
2. Consent from the Co-author;
3. No Objection from the Publisher of the published paper; and
4. Similarity Verification from the Guide

ACKNOWLEDGEMENT

“In the Name of Allah, the Most Beneficent, the Most Merciful”

In Islam we begin all our actions in the name of Allah, the Most Merciful, the Most Benevolent, to remember that everything is for His sake. We begin in Allah’s name in the hope that we will be successful, rewarded and blessed.

I pay my gratitude and respect to my Mother Tahera Khatoon and Father Md. Safir Ansari , Uncle’s Advocate Ainul Haque Ansari and Prof. Maulana Hafiz Md. Sarfaraz Ahmad and all teachers for their support and guidance. This thesis is one of the products of their blessings. The affection and mentoring of my dear friend Dr. Ajay Kumar Singh remains a perennial source of my strength. The love and support of my sisters gave me the encouragement to aim high.

The time spent at the Entrepreneurship Development Institute of India (EDII) was one of the most learning part of my life both practically and theoretically to understand the field of Entrepreneurship . My research tenure at EDII has been immensely enriching. During the time spent here, I met with an excellent team of faculty members and many entrepreneurs, International participants who roamed the lovely landscape of EDII. Some came to deliver workshops, attend Entrepreneurship Development Programs (EDPs), some to get incubated, but most entrepreneurs wanted to learn from the vast pool of knowledge present in this institute in the form of its faculties. This thesis presents the experiences and findings of five years of hard work, but more than that, this thesis is the result of learning from people around the globe and culmination of a vague idea into a full-fledged thesis.

First and foremost, I wish to extend my deepest gratitude to the Director General of EDII, Dr. Sunil Shukla for his unconditional support and much needed motivation to complete my thesis on time. He has been instrumental in this journey of mine. In the same space, I would like to express my sincere thanks to the FPM Chair, EDII, Dr. Sasi Misra for his trust in me. Having lunch with him at EDII canteen turned out to be an enriching experience and his words of wisdom have pushed me to do better and better.

I have the deepest regards for my thesis supervisor, Dr. Amit Kumar Dwivedi, FPM Coordinator and In-charge Department of Policy Advocacy, Knowledge and Research at EDII , who has not only been an excellent support but a great facilitator as well. His extensive knowledge on entrepreneurship, both practical and theoretical, made my journey a smooth sail. During the most crucial times in thesis development process, he gave me the essential freedom and space I needed to move on. An extremely cheerful and engaging academician, he has been a guiding light in the realest of senses.

This space would be incomplete without mentioning Dr. Satya Ranjan Acharya, Director, Department of Entrepreneurship Education at EDII. He helped me come up with thesis topic and motivated me to finish my thesis on time. He has been instrumental in shaping this thesis along with my supervisor. I thank him for his monumental support.

I thank Ganapathi Batthini, our ever-smiling and ever helpful librarian, for his enormous support throughout. Never once did he say no to any of our requests for books, papers, and support in thesis structuring. I also thank Girish Aswani, Secretary for his tireless efforts and support during FPM . I extend my thanks to my seniors Anal da, Raj Shankar. for always being kind to me and ready to clear any doubt. Special thanks to Subhendu and Arun, my colleagues and Umesh, my dear friend, for their unconditional support and endless cups of tea and coffee that were gulped during our time at EDII.

My friends outside EDII, Muhsina, Prof. Divya, Prof. Mohsin, Javed, Bishnu, Avinash, Aijaz, Alam and Haroon have been ever supporting during my tenure. Their contribution is second to none. I am grateful to Almighty Allah for bestowing me with such friends. I am indeed one of the richest people on this planet because of them.

I would like to extend my humble thanks to Prof. Abbas V. Agalodiya and Mehmood for their help and support in my data collection in Gujarat. I also wish to offer my deepest gratitude for the unsung heroes of this thesis, the Agripreneurs. They were so helpful and instrumental in making data collection, one of the most difficult and the most important process of any research, seem so easy that is beyond words. The Agripreneurs of Gujarat would always have a special place in my heart.

Again, I thanks to my parents with gratitude and seek their blessings. It is because of them that I mustered the courage to embark on this journey and it is because of them that I have been able to finish it without any hassle. I thank you Mother for providing unconditional support and blessing and believing in me. I thank you Papa for all sacrifices you put it for me. It is a pleasure to always talk to you and learn the wisdom of life from you. I am looking forward to many more of them.

Table of Contents

Title Page	
Certificates	
Acknowledgement	i
Summary	iii
List of Tables and Figures	xvii

CHAPTER 1: INTRODUCTION **1-26**

1.1. What is Appropriate Technology?	
1.2. Goals and Significance of Appropriate Technology	
1.3. Applications of Appropriate Technology in Various Activities	
1.4. Usage of Appropriate Technologies in Agriculture Sector	
1.5. Components of Agricultural Technologies	
1.6. Appropriate Technologies in Indian Agriculture Sector	
1.7. Problem of Statement on Usage of Appropriate Technology in Agriculture	
1.7.1. Research Gap	
1.7.2. Research Questions	
1.7.3. Research Objectives	
1.7.4. Hypothesis Testing	
1.7.5. Significance of the Study	
1.8. Test Philosophy of Appropriate Technology	
1.9. Why there needs to be Understanding on Appropriate Technology?	
1.10. Appropriate Technology as a Component in Entrepreneurship Activity	
1.11. Growth Rate Model for Technological Advancement and Agriculture in Gujarat	
1.12. Confirmatory Factor Analysis (CFA)	
1.13. Empirical Model on Agricultural Productivity and Appropriate Technologies	
1.14. Segregation of Agricultural Technologies as an Appropriate Technologies	
1.15. Organization of the Thesis	

CHAPTER 2: REVIEW OF LITERATURE **27-49**

2.1 Appropriate Technologies and Innovation	
2.2 Appropriate Technologies and Economic Development	

- 2.3 Characteristics of Appropriate Technologies
- 2.4 Categorization of Appropriate Technologies
- 2.5 Usages of Appropriate Technology and Innovation in Developed Countries
- 2.6 Usages of Appropriate Technology and Innovation in Developing Countries
- 2.7 Usages of Appropriate Technology and Innovation in Context of India
- 2.8 Usages of Appropriate Technology and Innovation in Indian Agriculture
- 2.9 Challenges of Agricultural Sector and Needs of Appropriate Technology in India
- 2.10 Summary, Concluding Remarks and Research Gap

CHAPTER 3: RESEARCH METHODOLOGY

50-75

- 3.1 Sources of Secondary Data
- 3.2 Sources of Primary Data
- 3.3 Measurement of Economic, Social and Environmental Viability of Appropriate Technology
 - 3.3.1 Theoretical Foundation to Assess the Impact of Appropriate Technology in Agricultural Sector
- 3.4 Analysis of Secondary Data
 - 3.4.1. Growth Rate Model for Technological Advancement and Agriculture Test
 - 3.4.2. Influence of Technological Change on Yield of major Crops in Gujarat
- 3.5 Analysis of Primary Data
- 3.6 Conceptual Framework of Confirmatory Factor Analysis (CFA) Technique
 - 3.6.1 Selection of Variables
 - 3.6.2 Justification on Dependent and Explanatory Variables
- 3.7 Empirical Model for Agricultural Production and Appropriate Technologies
- 3.8 Segregation of Agricultural Technologies as an Appropriate Technologies

CHAPTER 4: RESULTS AND DISCUSSION OF SECONDARY DATA

76-105

- 4.1 Current position of Agri-start-ups in India
- 4.2 Overview of Agricultural Technologies
- 4.3 Influence of Technological Advancement of Crop Farming in Gujarat
- 4.4 Impact of Technology Change on Yield of Crops in Gujarat
- 4.5 Confirmation of Hypothesis Testing
- 4.6 Summary and Conclusion

CHAPTER 5: RESULTS AND DISCUSSION OF PRIMARY DATA**106-143**

- 5.1. Statistical Description of Primary Data
- 5.2. Results Based on Confirmatory Factor Analysis (CFA) Technique
 - 5.2.1. Eigenvalues and Proportion of Factors
 - 5.2.2. Factor Loading on Segregated Categories of Factors and Uniqueness
 - 5.2.3. Validity of Results of Confirmatory Factors Analysis (CFA)
- 5.3. Discussion on Empirical Results
- 5.4. Discussion on Selected Technologies
- 5.5. Confirmation of Hypothesis Testing
- 5.6. Summary and Conclusion

CHAPTER 6: CONCLUDING REMARKS AND POLICY SUGGESTIONS 144-152

- 6.1. Descriptive Results of Agri-start-ups in India based on Secondary Data
- 6.2. Descriptive Results of Agricultural Technologies in India based on Secondary Data
- 6.3. Impact of Technological Change on Growth of Crops in Gujarat using Secondary Data
- 6.4. Effect of Technological Change on Yield of Crops in Gujarat using Secondary Data
- 6.5. Descriptive Results based on Primary Data
- 6.6. Results based on Confirmatory Factors Analysis (CFA) Technique
- 6.7. Impact of Appropriate Technology on Agricultural Production using Primary Data
- 6.8. Overview of Selected Technologies as an Appropriate
- 6.9. Effective and Practical Suggestions for Farmers to use of Appropriate Technology in Farming
- 6.10. Contribution and Limitation of the Study, and Future Research Direction
