Healthcare, biotech hot favourites with investors

15+ Startups Incubated In Ahmedabad-Gandhinagar Got Funding In 2022

Parth.Shastri@timesgroup.com

Ahmedabad: Medicine, an artificial intelligence (AI) based startup that reminds patients to take medicine on stipulated time, got the first round of funding in 2022. Founded by the management and engineering graduates Kush Prajapati, Dhaamil Parmar, Raj Shah, Harsh Mangukiya, the healthcare solution was in prototype for a couple of years, but last year saw its application in some city-based hospitals and also got valued for its funding round.

Parmar, one of the co-founders, said that Covid pan-

Investors becoming value-centric

demic played a major part in the turnaround for several of the startups in the healthcare and wellness segment. "There is more acceptance of such ideas and confidence among

investors," he said.

His is one of the 15-plus startups from Ahmedabad and Gandhinagar-based incubators that have got funding in the last year. Satya Ranjan Acharya, a professor at EDII and director of incubator Cradle where Redicine is incubated, said the trend started in 2020 with young entrepreneurs who saw the opportunity in the pandemic.

"The trend continued in 2022 - out of 13 of our startups that got funding in 2022, five were in the healthcare seg-

ment. There have been more innovation-driven solutions ranging from core engineering (medical devices) to patient care and application-based services. One of this year's winners at our annual meet on Monday was LymbEdge, an Ahmedabad-based biomedical startup that helps patients in rehabilitation," he said.

Likewise, at GUSEC - incubator at Gujarat University - 10 new startups in healthcare and healthtech and 6 in biotech got incubated. In comparison, the artificial intelli-

gence/machine learning sector got 6 new startups, 13 in edutech, 5 in electric vehicles and 4 in fintech. Rahul Bhagchandani, group CEO and executive director of GUSEC, said that about Rs 60 crore funding was received by the startups in fintech, food, mobility, healthcare, energy and agritech at the incubator in 2022.

"Investors are becoming more value-centric, and the growth is also propelled by government funding schemes. More startups are getting funded in high-end technology," he said.

'Health tech and biotech startups gaining traction in post-Covid world'

(From Left) Harkesh Mittal, Sunil Shukla with MoS Harsh Sanghavi at an award ceremony in EDII on Monday

Parth.Shastri@timesgroup.com

Ahmedabad: Healthcare, health technology and biotechnology are some of the sectors that saw a funding boom after the outbreak of Covid-19 in 2020. The surge continued in 2022 with several innovative startups getting funds and significant traction. The trend is here to stay, said Harkesh Mittal, the chairman of Startup India Seed Fund Scheme, who spoke to TOI on the sidelines of Empresario

startup meet at Entrepreneurship Development Institute of India in Gandhinagar.

"Post-Covid, biotech and health tech have gained attention. We are seeing many startups in drug discovery and delivery, vaccine carriers for delivery in remote areas, and early diagnostics etc. Contactless services have also garnered interest," said Mittal, adding that conventional sectors such as IT are also doing well. "A few venture capitalists are also available for the healthcare sector," he added.

Mittal said that there is more opportunity for startups to receive government funding. "There have been complaints that there's too much paperwork involved. While it's being simplified, I want to clarify that the funding (from government) is easier in the long run, as the returns on investment is

not the only criterion," he said, adding that Gujarat is among the top states getting funds from the seed fund scheme.

Dr Sunil Shukla, director general of EDII, told TOI that the startup scenario has matured over the years, and there have been more avenues for funding. "For example, for entrepreneurs from marginalized communities, there is an ASEM scheme, whereas there are special funds for projects pertaining to livelihoods and rural social innovations," he said, adding that edu-

tech, fintech, delivery services, healthtech, wellness and biotech were important sectors to look out for in 2023.

Empresario, the startup meet at EDII, was inaugurated by MoS (home) Harsh Sanghavi on Monday. "Gujarat is on the road to becoming one of the most progressive startup destinations in the country through a merger of proactive policies, strong institutional setup, and dynamic participation of the private sector," he said. "The state has introduced several changes in regulations and clauses to create a conducive ecosystem. Gujarat has successfully addressed the concerns of startups through innovative and sustainable solutions, and through setting up of incubators and accelerators," he added.

GAZING INTO THE FUTURE: Startup incubators from the city were asked about the projections for 2023. They mentioned radiology interpretation platforms, robotics, space technology, gaming, logistics, clean energy, etc., as indications of the future. The innovations were rooted in the city. The experts indicated that 2020 and 2021 saw a boom in mobile-based services and education technology, which has stabilized. They highlighted the untapped potential in the use of technology in sectors such as agriculture, transport, and remote services like psychological assessments with the advent of 5G.

"The electric vehicle (EV) segment is peaking this year. Right from improving battery life to charging, there is a lot of scope in the technology. The health and lifestyle segment is also doing well regarding new ideas and getting funds. Solutions related to green energy and lifestyle are also likely to gain traction this year

Satya Ranjan Acharya | DIRECTOR, CRADLE

"There is no shortage of funding for good projects. Many investors want to invest in new technology, including NFTs, blockchain, virtual reality, artificial intelligence, etc. Due to government support, fintech and digital payment sectors are doing pretty well. New entrepreneurs are also coming up with out-of-the-box ideas

Rahul Bhagchandani | DIRECTOR, GUSEC

A third of Gujarat startups are in the healthcare sector

▶ Continued from P1

Quoting the Department for Promotion of Industry and Internal Trade (DPIIT) figures, Hirannay Mahanta, CEO of iHub, said that till January 2023, Gujarat had about 6,300 startups out of which 34% or about one-third were in healthcare and life sciences.

"Gujarat being the hub of pharmaceutical industry and manufacturing, the sector has seen phenomenal

growth in the past couple of years," he said.

At CII.CO, the incubator at IIM Ahmedabad (IIM-A), the prominent new startups for the year 2022 included in the sectors including healthcare, mobility, cleantech, fintech, enterprise tech and consumer tech. The state government last year introduced the state-level incubator for medical colleges to encourage medical students to venture into startups and entrepreneurship.

એજ્યુકેશન રિપોર્ટર | અમદાવાદ

ઓનપ્રિન્સિપલ ડેવલપમેન્ટ ઇન્સ્ટિટ્યૂટ ઓફ ઇન્ડિયા (EDII) માં નેશનલ સ્ટાર્ટઅપ ડેની ઉજવણી કરાઈ હતી, જેમાં અમદાવાદ ઉપરાંત દેશભરમાંથી 60 સ્ટાર્ટઅપ જોડાયા હતા, જેમાં મોટા ભાગના સ્ટાર્ટઅપ ખેતી અને સસ્ટેનેબિલિટી સાથે જોડાયેલા હતા, જ્યારે અમુક સ્ટાર્ટઅપમાં મહિલાઓની સુંદરતા, સ્વાસ્થ્યને ધ્યાને રાખીને પોતાની પ્રોડક્ટને રજૂ કરાઈ હતી. બે દિવસના ફેસ્ટિવલ દરમિયાન વિવિધ સ્ટાર્ટઅપ પોતાના આઈડિયા શેર કરશે. ઉપરાંત દેશના જાણીતા બિઝનેસ અને સ્ટાર્ટઅપના તજજ્ઞ દ્વારા માર્ગદર્શન આપવામાં આવશે.

ઈડીઆઈઆઈની વાર્ષિક ઇવેન્ટ ઇમ્પ્રેસારિયોના ઉદઘાટન પ્રસંગે રાજ્યના ગૃહપ્રધાન હર્ષ સંઘવીએ જણાવ્યું હતું કે, ગુજરાત સક્રિય મર્જર નીતિઓ, મજબૂત સંસ્થાગત માળખા અને ખાનગી ક્ષેત્રની સતત વધતી ભાગીદારી મારફતે દેશમાં સૌથી વધુ પ્રગતિશીલ સ્ટાર્ટઅપ સ્થાનો પૈકી એક બનવા અગ્રેસર છે.

'સ્ટેન્ડ અપ ઇન્ડિયા' અને 'સ્ટાર્ટ અપ ઇન્ડિયા' યોજનાઓ વર્ષ 2016માં શરૂ થઈ હતી. અત્યાર સુધી 80 હજારથી વધારે સ્ટાર્ટઅપની નોંધણી થઈ ચૂકી છે તથા આશરે 100 યુનિકોર્ન અસ્તિત્વમાં આવ્યા છે. સારી ભાબત એ છે કે તેમાંથી 48 ટકાથી વધારે સ્ટાર્ટઅપ મહિલાઓનાં છે.

સ્ટેન્ડ અપ ઇન્ડિયા અને સ્ટાર્ટઅપ ઇન્ડિયા યોજના હેઠળ 7 વર્ષમાં 80 હજાર સ્ટાર્ટઅપ નોંધાયા

ગૃહમંત્રી હર્ષ સંઘવીએ હાજર રહી વિવિધ સ્ટાર્ટઅપ વિશે માહિતી મેળવી.

હવે ધાન- કઠોળની ક્વોલિટી જાણી શકાશે

જ્યારે આપણે થઈ, ચોખા વગેરેની ખરીદી કરવા જઈએ છીએ ત્યારે આપણે મુઠ્ઠી ભરીને ધાનની તપાસ કરીએ છીએ, પરંતુ તેમાં આપણને તેની ક્વોલિટીની જાણ થતી નથી. અમદાવાદના એક સ્ટાર્ટઅપ 'ઉપજાઉ' પ્રોજક્ટ તૈયાર કર્યો છે. એપ્લિકેશન બેઈઝ ડિવાઈસમાં તેમને ધાન કે કઠોળના સેમ્પલને નાખતાં તેની તમામ માહિતી તમને મોબાઈલ એપમાં આવશે. જેમ કે સેમ્પલ કેટલું છે, તેમાં કયા દાણા ખરાબ છે, કેટલા પર કાળા ડાઘ છે, તેમાં કયરું કેટલું છે વગેરે જેવી બાબતો જણાવી આપશે. આ માહિતીને આધારે વેપારી કે મોટા પ્રમાણમાં ખરીદી કરનારા લોકોને જથ્થામાં રહેલા ધાન કે કઠોળની ક્વોલિટીની માહિતી મળી જશે.

'હેલ્થી નારી' સેનેટરી પેડ 9 કલાક સુધી ચાલશે

મહિલાઓ દ્વારા ઉપયોગમાં લેવાતા સેનેટરી નેપક્રીન 4થી 5 કલાક ચાલે છે, પરંતુ 'હેલ્થી નારી' સ્ટાર્ટઅપ દ્વારા તૈયાર કરાયેલું સેનેટરી નેપક્રીન 9 કલાક સુધી પ્રવાહી શોષી શકે છે અને તેનાથી કોઈ આડઅસર પણ થતી નથી. સ્ટાર્ટઅપના ફાઉન્ડર અનુજ રાઠોડે જણાવ્યું કે, અમે તૈયાર કરેલું પેડ પ્યોર કોટન અને બાયોડિગ્રેબલ પેપરમાંથી તૈયાર થયું છે. અત્યાર સુધી 70 હજાર પેડનું અમે વેચાણ કર્યું છે. અમે માર્કેટ કરતાં ભાવ ઓછો રાખ્યો છે. આ પેડની કોઈ આડઅસર નથી, કારણ કે તેમાં કોઈ હાનિકારક તત્વોનો ઉપયોગ કર્યો નથી.

મંત્રીએ વધુમાં જણાવ્યું હતું કે સ્ટાર્ટઅપ માટે સાનુકૂળ ઇકોસિસ્ટમ તૈયાર થાય તે માટે કેન્દ્ર અને રાજ્ય સરકાર દ્વારા જરૂરી નિયમો અને જોગવાઈઓમાં ફેરફારો પણ કરવામાં આવ્યા છે. અન્ય રાજ્યોના સ્ટાર્ટઅપ

ઈડીઆઈઆઈ, ભાટ ખાતે નેશનલ સ્ટાર્ટઅપ દિવસ નિમિત્તે 'વાર્ષિક સ્ટાર્ટઅપ સમિટ -૨૦૨૩ એમ્પ્રેસેરિયો' નું ઉદઘાટન કરતા ઉદ્યોગ રાજ્ય મંત્રી

કેન્દ્રોનું ગુજરાતના સ્ટાર્ટઅપ કેન્દ્રો સાથે જોડાણ કરી આંતરરાજ્ય પ્રાદેશિક સ્ટાર્ટઅપ કેન્દ્રો તૈયાર કરવામાં આવે છે. રાજ્ય સરકાર દ્વારા ઇનોવેટીવ અને સસ્ટેઈનેબલ સમાધાન કરીને તથા ઇક્યુબેટર્સ અને એક્સલરેટર્સ સ્થાપિત કરીને સ્ટાર્ટઅપની સમસ્યાઓનું સફળતાપૂર્વક સમાધાન પણ કરવામાં આવ્યું છે.

ઈડીઆઈઆઈના ડાયરેક્ટર જનરલ ડો. સુનિલ શુક્લાએ સ્વાગત પ્રવચન કરતાં કહ્યું હતું કે, ઇડીઆઈઆઈની સ્ટાર્ટઅપ સમિટ ભારતમાં સૌથી વધુ વિશિષ્ટ આંતરપ્રિન્યોરિયલ ફેસ્ટિવલ્સ પૈકીની એક છે. વર્ષ ૨૦૧૨માં એની શરૂઆત થયા પછી અત્યાર સુધી એમ્પ્રેસેરિયોમાં ૧,૦૦૦થી વધારે સ્ટાર્ટઅપની ભાગીદારી જોવા મળી છે. અહીં વિચારો અને રોજગારીની તકોના સર્જન માટે માર્ગદર્શન આપવામાં આવે છે.

ડો. શુક્લાએ સ્ટાર્ટઅપ્સની સફળતામાં ટેકનોલોજી અને ઇનોવેશનની ભૂમિકા પર ભાર મૂકતા કહ્યું કે, ઇડીઆઈઆઈનું ટેકનોલોજી બિઝનેસ ઇક્યુબેટર-સેન્ટર ફોર એડવાન્સિંગ એન્ડ લોચિંગ એન્ટરપ્રાઇઝીસ (કેડલ)એ અત્યાર સુધી ૧૦૬ સ્ટાર્ટઅપનું ઇક્યુબેશન કર્યું છે. જેના થકી રૂ. ૩૦ કરોડ થી વધુનું નાણાકીય ભંડોળનું સર્જન થયું છે.

ઈડીઆઈઆઈ હવે અટલ ઇનોવેશન મિશન (એઆઈએમ) અંતર્ગત નીતિ આયોગ દ્વારા માન્યતા પ્રાપ્ત વધુ એક ઇક્યુબેશન સેન્ટર મેળવશે. ઇડીઆઈઆઈએ દેશમાં ઉદ્યોગ સાહસો અને સ્ટાર્ટઅપ્સની સંખ્યા વધારવા કેટલાંક કોર્પોરેટ સાથે સીએસઆર પ્રોજેક્ટનું પણ જોડાણ કર્યું છે.

ફિક્કીના સહ-અધ્યક્ષ રાજીવ ગાંધીએ કહ્યું કે, એમ્પ્રેસેરિયો એક મોટું નેટવર્કિંગ પ્લેટફોર્મ છે અને

નેટવર્કિંગના નવા માપદંડો ઊભા કરવા, તકોનું સર્જન કરવા અને જાણકારી વધારવા માટે મહત્વની ભૂમિકા ભજવે છે. તેમણે ઉદ્યોગ સાહસિક માટે સમર્પણ, સંકલન અને કટિબદ્ધતા જેવા મૂલ્યોના મહત્વ પર પણ ભાર મૂક્યો હતો. વર્તમાન અને ભવિષ્યના સ્ટાર્ટઅપ્સ માટે સંસ્થાને પારદર્શક માનવીય સંશાધન નીતિ અને સારું કમ્યુનિકેશન સ્થાપિત કરવાની પણ તેમણે સલાહ આપી હતી.

ઉત્તરાખંડના ઉચ્ચ શિક્ષણ વિભાગના મદદનીશ નિયામક દીપકકુમાર પાંડેએ કહ્યું હતું કે, દેશમાં ઉદ્યોગ સાહસિકતા અને સ્ટાર્ટઅપ્સની વિભાવના વેગ પકડી રહી છે ત્યારે યુવાનો અને સમાજના અન્ય વર્ગો ઉદ્યોગ સાહસિકતાને એક કારકિર્દી તરીકે અપનાવે તે જરૂરી છે.

આ બે દિવસીય સમિટમાં સફળ ઉદ્યોગ સાહસિકો દ્વારા માસ્ટર ક્લાસ અને સફળ સ્ટાર્ટઅપ સ્થાપકો દ્વારા વર્કશોપનું આયોજન કરી વિદ્યાર્થીઓને વિશેષ માર્ગદર્શન પણ આપવામાં આવશે.

અ. ૧ કાર્યક્રમમાં ૨૮ નોમિનેશનમાંથી ૪ સ્ટાર્ટઅપ્સને 'ધ સ્ટાર્ટઅપ એવોર્ડ ૨૦૨૩' એનાયત કરવામાં આવ્યા હતા. આ કાર્યક્રમમાં લોકપ્રિય રિયાલિટી શો 'શાર્ક ટેક ઇન્ડિયા'માં દર્શાવવામાં આવેલા સ્ટાર્ટઅપ્સ સહિત જાણીતા ઉદ્યોગપતિઓ, સફળ સ્ટાર્ટઅપ સ્થાપકો, સ્ટાર્ટઅપના રોકાણકારો અને ઇડીઆઈઆઈના વિદ્યાર્થીઓ બહોળી સંખ્યામાં સહભાગી થયા હતા.

Harkesh Mittal, Sunil Shukla with MoS Harsh Sanghavi at an award ceremony in EDII on Monday

AHMEDABAD: Healthcare, health technology and biotechnology are some of the sectors that saw a funding boom after the outbreak of Covid-19 in 2020. The surge continued in 2022 with several innovative startups getting funds and significant traction. The trend is here to stay, said Harkesh Mittal, the chairman of Startup India Seed Fund Scheme, who spoke to TOI on the sidelines of Empresario startup meet at Entrepreneurship Development Institute of India in Gandhinagar.

"Post-Covid, biotech and health tech have gained attention. We are seeing many startups in drug discovery and delivery, vaccine carriers for delivery in remote areas, and early diagnostics etc. Contactless services have also garnered interest," said Mittal, adding that conventional sectors such as IT are also doing well. "A few venture capitalists are also available for the healthcare sector," he added.

Mittal said that there is more opportunity for startups to receive government funding. "There have been complaints that there's too much paperwork involved. While it's being simplified, I want to clarify that the funding (from government) is easier in the long run, as the returns on investment is not the only criterion," he said, adding that Gujarat is among the top states getting funds from the seed fund scheme.

Dr Sunil Shukla, director general of EDII, told TOI that the startup scenario has matured over the years, and there have been more avenues for funding. "For example, for entrepreneurs from marginalized communities, there is an ASEEM scheme, whereas there are special funds for projects pertaining to livelihoods and rural social innovations," he said, adding that edutech, fintech, delivery services, healthtech, wellness and biotech were important sectors to look out for in 2023.
